Dynamic Aspects

Represents the dynamic energy between the Outer Planets and Venus (or any personal planet). It is the most active energy of all the aspects where challenges happen and growth is the intended result. It is why when these outer planets are in dynamic aspect to Venus (etc.) they are considered Master Teachers and Guides

These Aspects include:

Conjunctions \oslash (0°) Intensifies the Energy

Celestial World Questions

What consciousness can I be and embody so I am experiencing the full expression of my infinite being?

If I was truly operating from a infinite cosmic perspective what would I choose?

Who would I BE?

What else is possible?

Uranus in Dynamic Aspect to Venus

No matter the Sign of Venus add Aquarius

If Venus is in a Water or Earth Sign this adds a desire to seek change and an ability to detach from the physical and emotional to gain a more cosmic perspective when needed

Adds a desire for Freedom from the Known to Evolve through Exploration of the Unknown

You are Awakened through Disruption of what IS that Create Changes in your life for no apparent rational reason

Men you may experience the external feminine as unpredictable, unusual, detached, and insightful, often creating a cosmic wake up call that may seem initially challenging and disruptive. The Inner Sacred Marriage work is helpful to own these qualities for yourself.

Neptune In Dynamic Aspect to Venus

No Matter the Sign of Venus Add Pisces

For Air and Fire Signs the experience of merging with others' feelings may be very intense and uncomfortable as these signs do not engage easily with the feeling function.

Venus with Neptune adds an Empathic connection to others feelings and states of being and an innate desire to heal and "take it on."

Along with Gifts of being a visionary that includes dreaming abilities and sensitivity to psychic energies, this is ultimately about bringing back the Feminine Seer and Mystic. This may also be experienced as confusion around your feminine identity and life path until you learn to ask for Divine Support and Surrender into Trust.

You may benefit from practices of daily energetic centering, balancing, protection and cleansing especially when engaged in healing work.

Men you may experience the feminine as ethereal, otherworldly, unattainable, dreamy, or childlike. You may also experience disillusionment in relationship and distorted projections. When you engage the Sacred Marriage you become capable of experiencing bliss states and ecstatic communion with the Feminine Divine within and in partnership.

The Middle World/Objective Reality

Middle World Questions?

If I had no judgment (or self-judgment) how would I choose to live?

What have I decided is impossible that could become possible right now?

What would it take for me to be 100% responsible as the creator of my life?

Jupiter in Dynamic Aspect to Venus

No matter what sign Venus is in add Sagittarius

If Venus is in an Earth or Water sign this adds more objectivity and a need for expansion along with experiences that broaden your perspective and worldview.

This adds an intent for the quest for spiritual knowledge and enlightenment, along with pursuit of higher states of consciousness.

It is about honoring your enthusiastic and adventurous nature while continually expanding and renewing vision.

Men you may experience the feminine as a very expansive energy that overwhelms you. This may also expand the qualities of your Venus Archetype in partners so there is no ambiguity about what you project or desire from your partner but for this to be successful you must integrate internally through the Sacred Marriage.

Saturn in Dynamic Aspect to Venus

No matter the sign of Venus add Capricorn

If Venus is in a Water, Fire or Air sign with a dynamic aspect from Saturn involved it grounds this expression of the Goddess, slowing you down. Venus in a water sign feels all the judgments more acutely. Venus in Fire or Air is frustrated by Saturn's density and rules, feeling Saturn is putting out the Fire and suffocating the Air.

The initial challenge is learning how to feel and receive the full pleasure of your Feminine Expression especially when Venus is in Taurus, Scorpio or a Solar Feminine Sign

Responsible Action Informs this Feminine Expression

The Inner Critic can feel like a ball and chain, never feeling good enough until Self-love and Forgiveness set you free

Men may feel you can never ever please the feminine no matter how perfect you are. You may give up - feeling what is the use in trying? You may always feel criticized or betrayed by external feminine relationships. The Inner Sacred Marriage Work is Essential or you will never feel good enough.

The Lower World/Underworld/Feeling Realm

Pluto and Chiron as Guides

Empowerment through transformation

Overwhelming events beyond your control
designed to produce genuine surrender

Detaching, going into denial, using strength,
or figuring it out with the mind, doesn't work

Finding out who you take yourself to be isn't who you really are

Death and Rebirth through letting go, non-attachment

Underworld Questions

What am I most afraid of? What fears am I not embracing? What abilities am I afraid to access?

What, if anything, is holding me back? How can I let that go?

What activities feel the most alive and authentic?

What would take for me to live a fully empowered and passionate life?

Chiron in Dynamic Aspect to Venus Has No Additional Archetype to Add

If Venus is in a Fire or Air sign this may be experienced as overwhelming vulnerability as these signs do not engage easily with feelings and emotions triggered by Chiron.

You may experience the Sacred Wound of being Feminine in a patriarchal culture, and/or the specific acute Wound associated with your Venus Sign. For example Taurus Venus might express as issues with eating disorders or extreme discomfort with the physical body.

Your wound might also be experienced as fundamental brokenness, or even identification with being a victim until your traumas and painful experiences are integrated and transformed. Then they become your healing medicine initiating you as a Shamanic Healer. Your Core Gifts emerge from the specific wounding you have healed.

Men you might experience the feminine as deeply wounded, and/or you may feel they are fundamentally broken in the realm of relationship and can never feel fully whole or meet you as a partner. The Sacred Marriage work is essential for you to feel whole and capable of fully meeting a partner fully with vulnerability.

Pluto in Dynamic Aspect to Venus

No matter the Sign of Venus add Scorpio

If Venus is in a Fire or Air Sign the intensity of Pluto is extra challenging as these signs are not embodied or feeling oriented.

Pluto to Venus adds the experience of being a Shadow Magnet or Catalyst to bring the Shadow to Light. You may feel Blamed and/or Targeted until your personal shadow is integrated.

You may feel initially powerless until Fears are Faced, then transformation and empowerment can occur.

Men you may experience the feminine as dangerous, unpredictable, scary and/or intense, always being taken deeper and further than ever before. You must do Inner Sacred Marriage and integrate your personal shadow to have empowered relationship with the external feminine.

Chiron Conjunct Venus in Aquarius

Robyn Wells Story

I won't be live for this Class so I wanted to share my observations about having Chiron conjunct and Uranus opposed to my Aquarian Venus. I'm all in for Aquarius training for my current life intent.

I'd have to live to be 117 before Venus progresses out of Aquarius on my chart. The Uranus opposition just amps up the Aquarian intensity for me. And Chiron has given me lots of lessons around feeling wounded for being different.

Although my Venus returns have mostly been fun and great, my Chiron return was a doozy with people saying things to me out of nowhere like "you're so weird." On my 50th birthday the person who took me out to lunch was so mean and critical about how I operate in the world that I cried and cried and then went to see the movie "Enchanted" by myself. But I finally got that my greatest strength lies in being different and having a unique perspective. Now I feel free and really enjoy the Aquarian gift of detachment.

Chiron Conjunct Venus in Aquarius

Robyn Wells Story

During the last call's breakout session, Emma and I discussed one way our Aquarian Venuses have shown up is in how we dress.

Shortly after my Chiron return, I was walking down the street wearing a favorite skirt and coat. A woman was outside talking on the phone. When she saw me, she hung up and chased after me.

She said she worked for a cable TV channel on a fashion show. Then she asked me if I wanted to come on the show and get a free makeover.

I wasn't angry, hurt, or insulted but told her that I'm happy with my appearance and that I dress the way I do because I like it. I must have been in my full Aquarian power because she kind of shrank down and backed away from me.

I'm really enjoying the class and so appreciate all of your wonderful work.

Gerdella Moody Story

I feel like this is a life phase where I am challenged to tame my inner wild horse/ spirit. I am struggling to find the balance between personal Freedom and making commitments.

Having Sagittarius in Venus helps me to think globally, my concern being for mother earth and all her inhabitants. I love adventure and world travel and enjoy learning how other cultures view what is true. I am processing this phrase of Saturn conjunct as a sense of duty and responsibility to get out of my airy thoughts and manifest my visions dreams and ideals into something concrete and tangible. But with a slant for what I desire.

This phase of having Saturn in Sagittarius transit for approximately two and a half years, energizes me but also forces me to fully accept my limitations and constraints both within my aging process and my current financial situation.

First I had to fully embrace acceptance and forgiveness beginning with myself then after I surrendered into the acceptance I was able to think a bit clearly to ask my self the tough saturn questions if I am to be mature and responsible for my self then what about my life am I willing to take the necessary steps to change?

Venus in Sagittarius with Saturn

Gerdella Moody Venus Story

Sometimes this is a deep and heavy process. Honesty it is not easy as I was raised by my grandmother as a child I can hear the voices of the ancestors (circle of the grandmothers energy) asking me if I am being responsible and mature and if my personal choices are beneficial to the whole? Especially my personal tribe of family, spouse, children, grandchildren and seven generations to follow? So this energy colors many of my personal choices by pushing me to be the mature elder type.

When I feel out of balance feelings of being resentful about my commitments, and my levels of responsibility come up for me. This Saturn in Sagittarius energy feels at times like the fire is absorbing all my air and leaving me to hanging out to dry.

My Venus energy wants to feel love, peace and beauty all the time while I struggle with the Sagittarius energy to just go travel the world on a personal sabbatical all the while Saturn is pushing me to focus my energy and bring more order and structure into your life at the same time - when I would prefer to hang out in my airy dream land where all is peachy.

Venus in Sagittarius with Saturn

Gerdella Moody Venus Story

Saturn pushes me to stop, running away from my difficult situations and also not to promise more than I can deliver.

Mainly with my biological age approaching 59- on 22 Oct I have experience this phase a life several times and have found a few tips that really helped me:

- Go with the flow of my life
- Do all in moderation
- Work hard
- Be picky , only spend my time on projects or people meaningful to me
- No blame and No shame - I am that which I am (use The power of the I am presence)
- Curb spending
- Cut down my debt - just allows me to feel lighter and responsible Spiritual - feeding my Soul life is just as vital as feeding my physical life
- OK to have limits
- Pace myself - am setting my foundation for my next seven years of life
- Acceptance is key - myself and others

Venus in Sagittarius with Saturn

Gerdella Moody Venus Story

- At this point in life my animal symbol is the snail and that's ok
- I am Slow but I am sure and steady and strong
- Also its temporary so I can hang; this phase will also pass
- Let go of Stuff - true-fully Less is ok and Quality is better than quantity so I cleared out my garage of junk I had and from my four children. Letting all that stuff go and now it will be a blessing to some young family
- Stay practical and accept its ok to put more of my energy into my self-love and self-care then in other phases of my life and be okay with that
- Lastly accept I need a degree of freedom to be me and do as I please when and how I please without guilt even it that shows up for me in a simple way like going to see movies alone on the first night it opens just because that's when I want to go
