## **Scorpio/Libra Overtone**

Previous priorities and life view have been deeply informed by your passion and intensity for magnifying personal life force. Your intent now is to find alive and collaborative ways to increase life force through partnership with others.

- Know the value of Cooperation and Collaboration as foundational to a healthy relationship experience
- Know Ourselves Through What Others Reflect to US
- Be a skillful Diplomat and Peacemaker, Promoting Harmony, Balance and Personal Connection

The Libra Meta Goddess has been out of favor for the last few thousand years and as a result most relationships have been primarily based in hierarchy, or one person being more important and dominant in the relationship than the other or others. This has resulted in relationship dysfunction that does not serve a healthy relational experience.

As this Meta Goddess returns it is time to once again experience the gifts of equal and collaborative partnerships, recognizing that we all thrive when we foster cooperation rather than competition.

**When there is an emphasis on the Scorpio archetype (either by sign or Overtone), although Venus could be Morning or Evening, would it be fair to say that it might add a more Underworld energy to its expression?**

**Tami's reply: Yes, absolutely having Venus in Scorpio with Scorpio Overtone, adds more of the Underworld dynamic to the Venus experience!**

**The question is - how does the Scorpio Overtone express as the Morning Star Goddess or the Evening Star Goddess or the Underworld Goddess?**

**Cayelin's answer: as Evening Star Scorpio Meta Goddess my intensity and my catalytic nature was repressed and suppressed as a child. As an adult these qualities are actively expressed through my sacred work.**

## Age 40 Venus Return

Father dies of Cancer two days before 40<sup>th</sup> Birthday. Profound spiritual awakening through his dying and death process.

**She Who Opens the Ways my Gemini Meta Goddess** guided me in

this cycle to Active Dreaming, a practice that integrates magic and mystery as a way of life and spiritual path.

**Synthesis:** In the Public Arena I Bring Magic Back into the World. I Am a Spiritual Pioneer Seeking My Highest Vision, Dedicated to My Full Awakening, and Living My Personal Truth

## How Cayelin's Venus Returns activated Aries Venus

**Age 16** Started Dating my first real boyfriend. Started doing more of what I wanted to do covertly (Scorpio Overtone) not overtly due to fear of my parents wrath.

**Age 24** Had the courage to quit a job that was not working for me. I didn't have the courage to confront the people I was working with so I quite by phone, but it was still a courageous step.

**Age 32** Had the courage to request certain boundaries in my first marriage or I was filing for divorce. When those boundaries continued to be violated I had the courage to file for divorce – finally gathering the courage to go through with it even though I had a minimum wage job and three small children and I was terrified.

**Age 40** My Priestess Initiation during this return helped me to further my cause of bringing Shamanic Astrology into a bigger community and gain mad ceremonial skills that were useful in my Shamanic Astrology work furthering my sacred mission.

**Age 48** Found the courage to help my 2<sup>nd</sup> husband with an intervention. I was terrified of his reaction but knew it needed to be done no matter what it cost me. The marriage did end the following year much to my great grief and simultaneous relief.

**Age 56** I committed to working ceremonially with my entire 19 month Venus return unaware it would lead to a new mission via Venus Alchemy two years later.
