## **The Return of the Shekinah**

**Christopher Knight and Robert Lomas wrote in *The Hiram Key* that Mercury and Venus together symbolized the Return of the Shekinah (the return of the Divine Feminine Presence Lighting our World) that occurs about every 40 years from any given Venus Mercury conjunction or starting point.**

**This adds another significant feature of the number 40 to the Venus cycle. (5 nineteen month Venus Cycles every 8 years  $5 \times 8 = 40$ )**

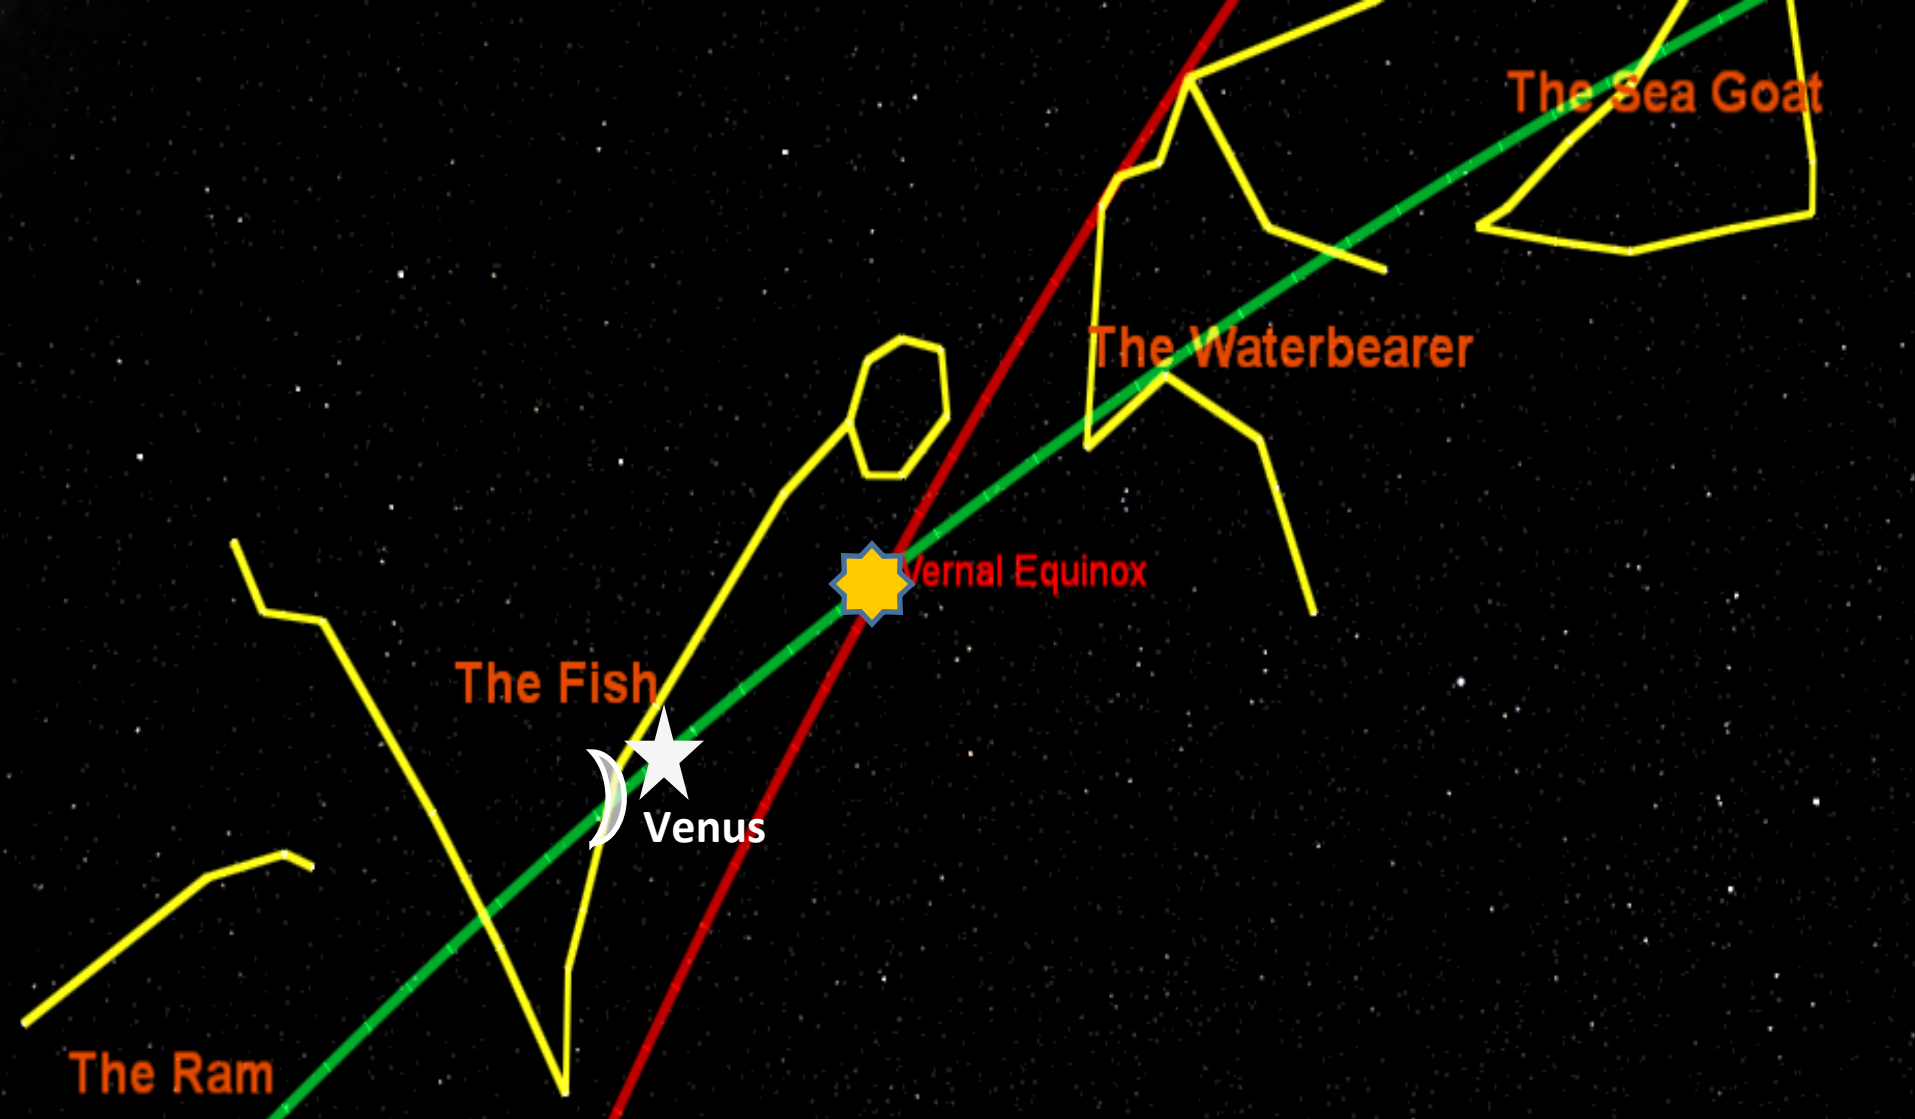

**This is another reason why the age 40 Venus Return is often so life changing further awakening a woman's divine feminine expression and a man's deepening connection to the inner divine feminine.**

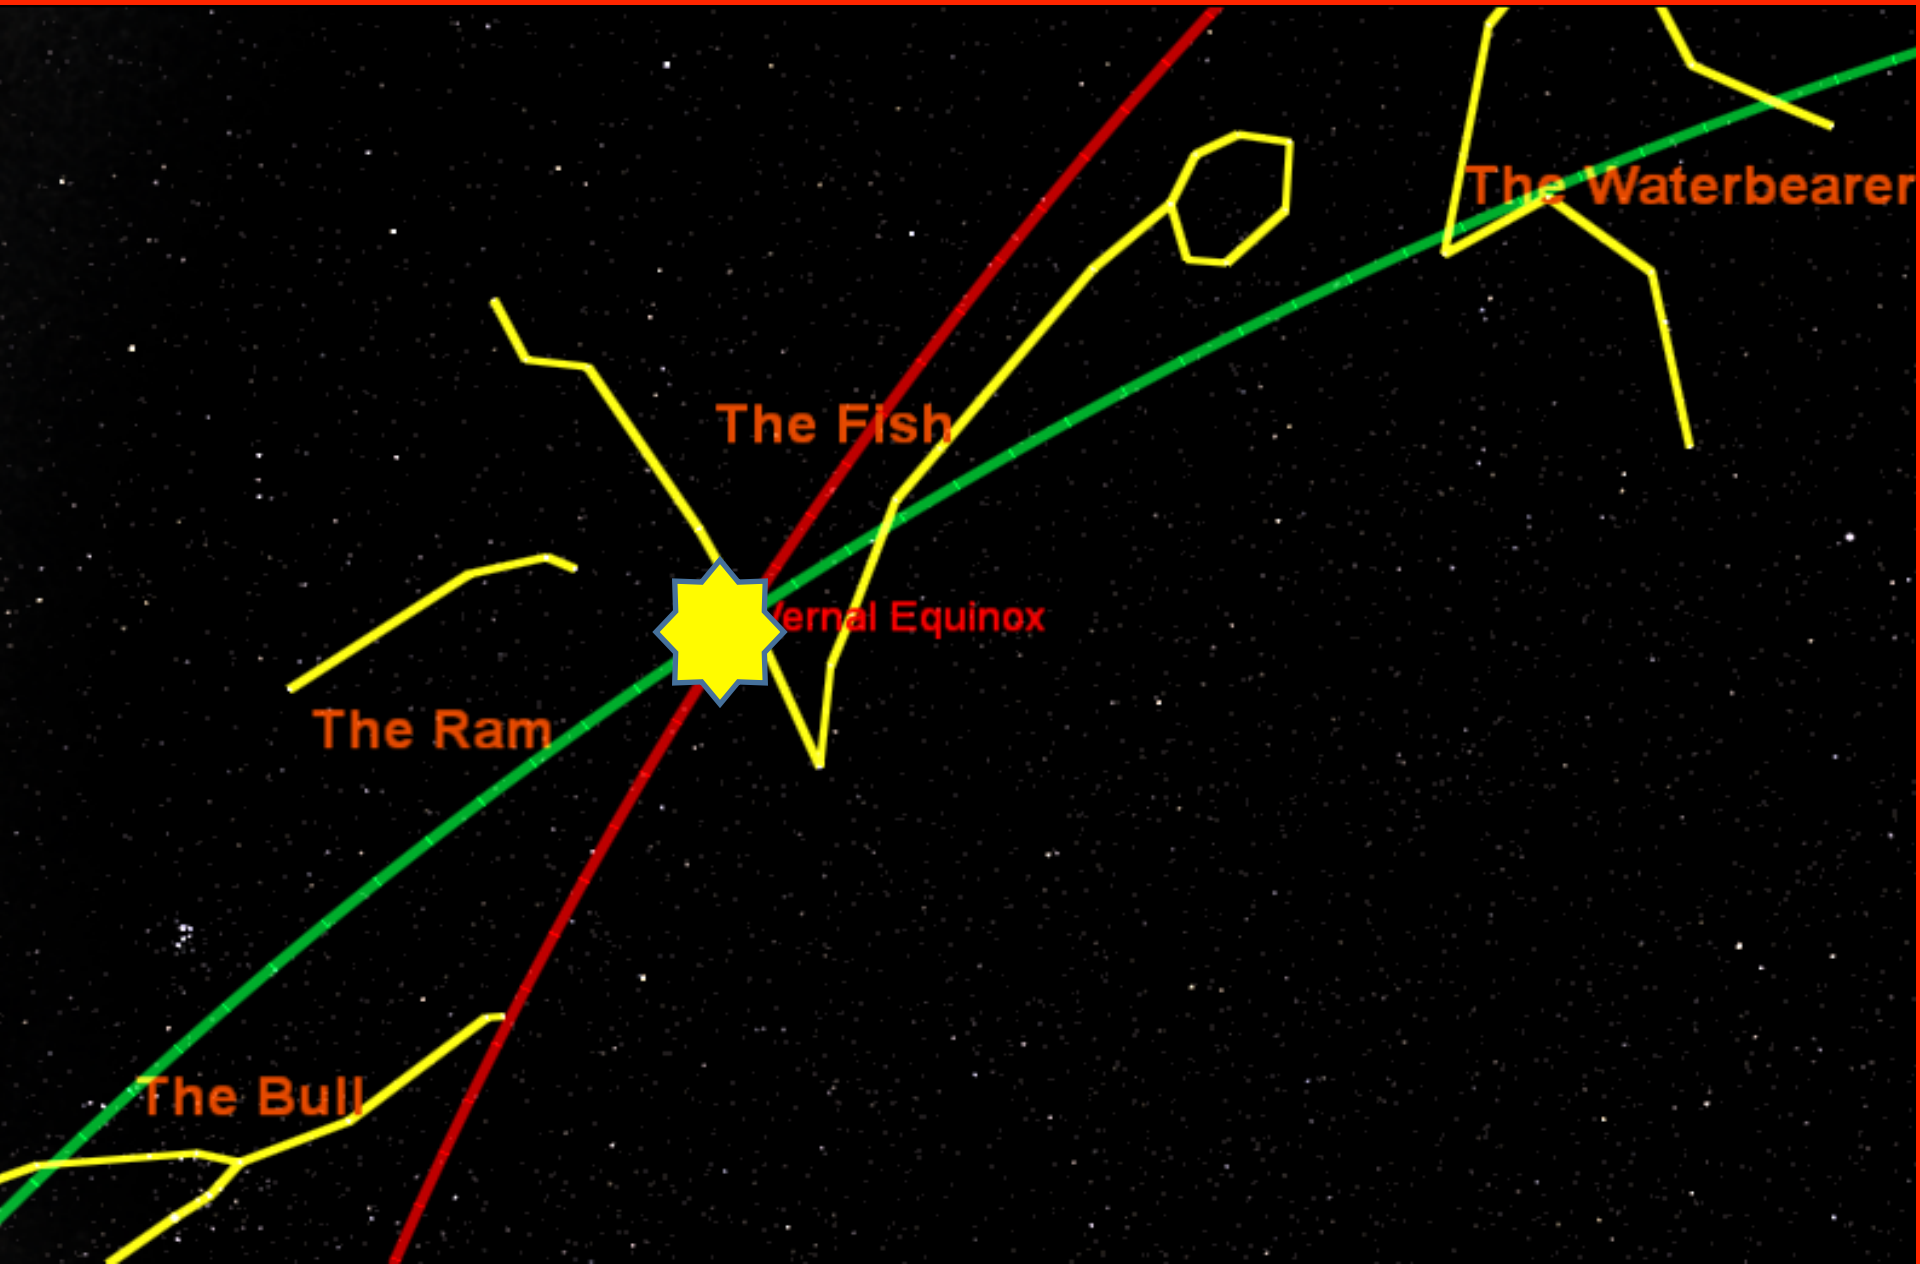

**The Sacred Geometry of Mercury and Venus in their path through the sky creates a Triquetra or Sacred KNOT in Celtic and Norse mythology. This symbol has been found in cave paintings at least 5000 years old.**

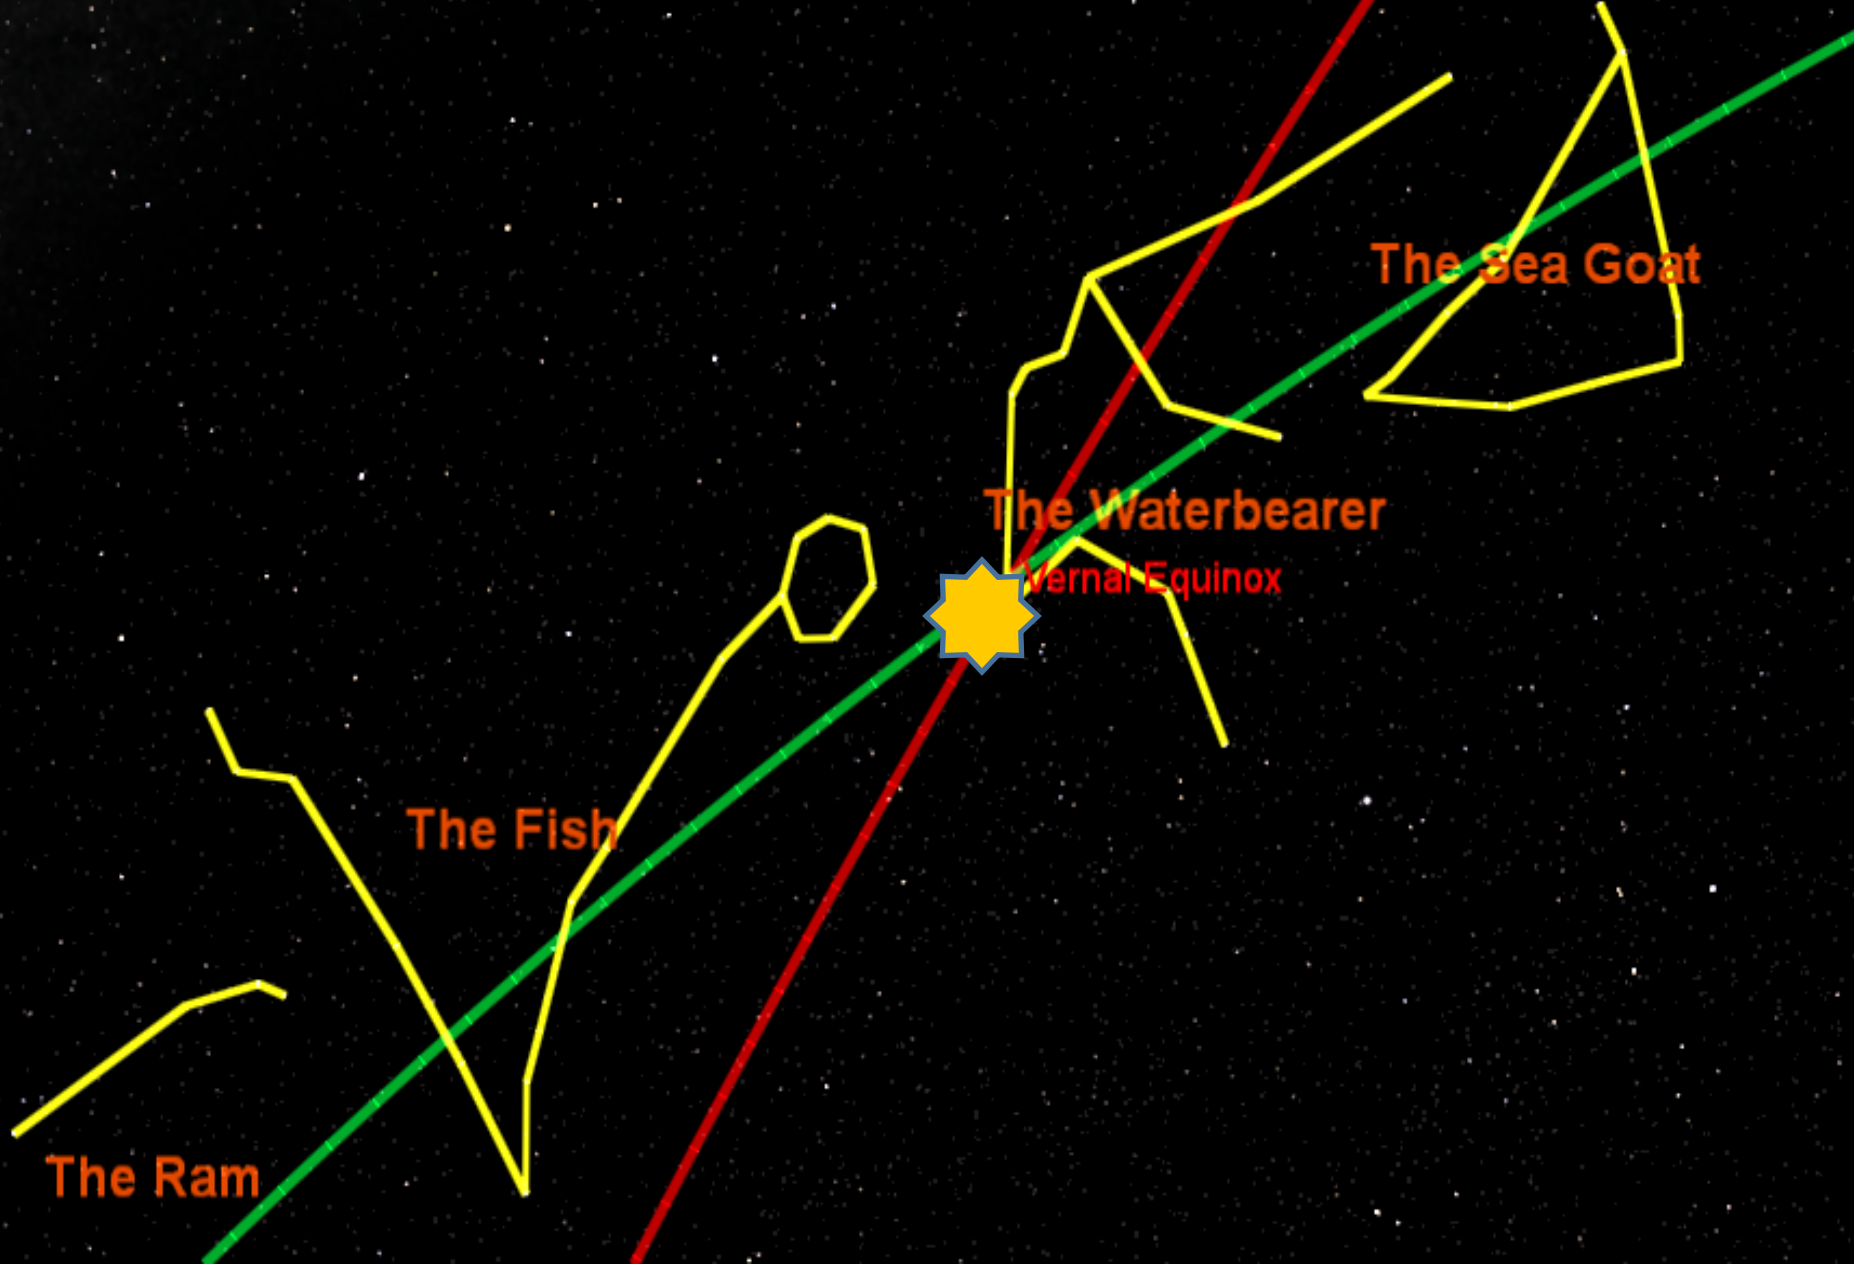

**This symbol represents the Power of Three sometimes linked with the Feminine Trinity of Maiden, Mother Crone composed of three interlacing vesicas forming a continuous protective design, representing the Power of Love, the Power of Choice and the Power of our Life Force energy to manifest and create our reality. Often the three vesicas (representing the path of Mercury) are interlaced with a surrounding circle (representing Venus) linking the two with the Divine Feminine.**

**Current March Equinox under the circlet of the Fish.  
The Red line is the Celestial Equator and Green line is  
the Ecliptic and where they intersect is the March Equinox

# Putting it

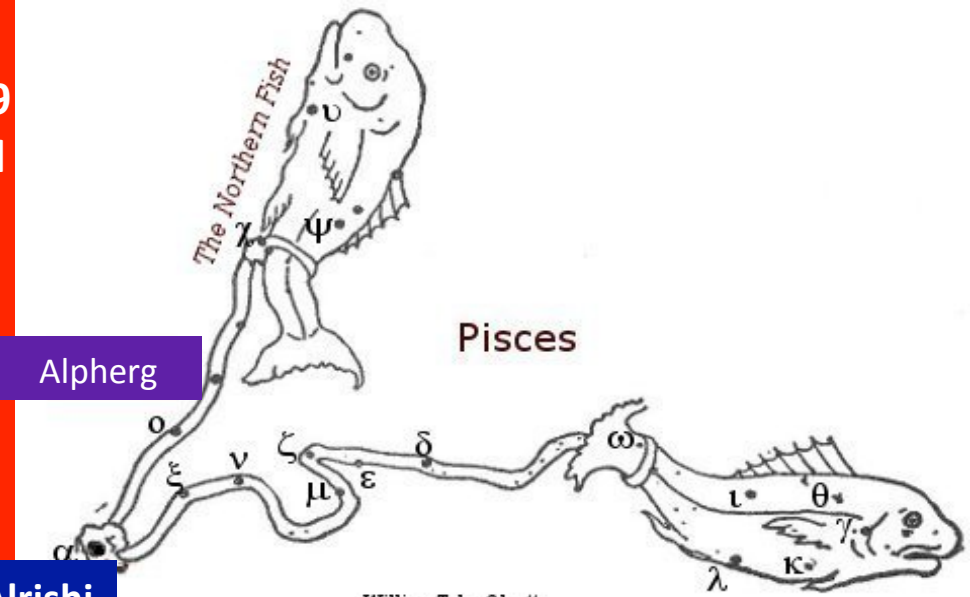

Venus and Uranus are both passing the fixed star Alpher (27 Aries) and very near Alrishi (29 Aries 36) where Venus passes on March 18 and Uranus hangs out within a few degrees all of 2018 (returning to 28 Aries when it stations direct in January of 2019).

The Greek Myth describing Aphrodite (a.k.a. Venus) and Eros (a.k.a Cupid) changing themselves into fish to get away from Typhon the deadliest monster of Greek mythology and the youngest son of Gaia was their story connected to this constellation.

The story goes that Aphrodite and Cupid were afraid of becoming separated while swimming away - so they tied their tails together with a long cord linking to a nexus point.

Perhaps this is not about trying to escape but having the courage to dive deep into the feeling realm to transform the shadow of what has been hidden and denied.

We might wonder how this is linking our experience creating a new synthesis - as the Goddess Rises renewed and reconnected with the multi-verse of possibilities now available?

**Alrishi is the knot connecting the two fish swimming in opposite directions**

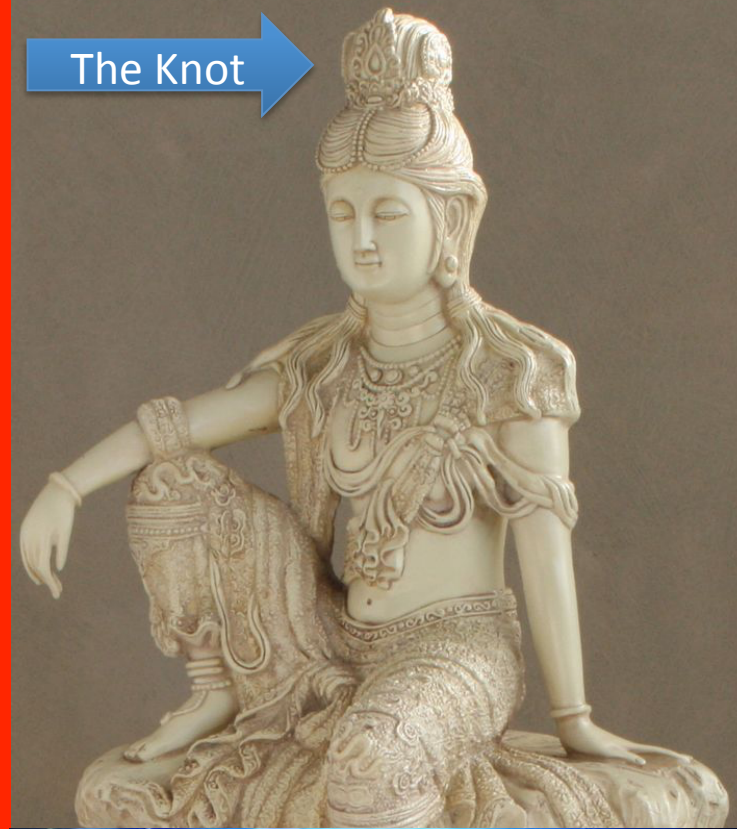

**Al Pherg is an outpouring of water from a jar.  
Both Alrishi and Alpherg are a connecting link or nexus between two unique energies**

**A possible question to consider is:  
What messages are available from other realms of reality linking our experiences for the purpose of synthesizing new healthy ways of relating to and expressing all the multi-dimensional aspects now manifesting?**

**The knot of hair seen on Kwan Yin, Buddha and Sikhs is a symbol for channeling divine energy.**

**Rishi (Sanskrit word) describes someone with the capacity to control the flow of life force energy (prana) in their body. We can imagine Venus is expanding her capacity to channel and direct her life force energy as she passes the star Alrishi.**

The Knot

**An old perspective of this constellation from the 1<sup>st</sup> Century Book *Astronomica* by Manilius says:** *The folk engendered by the two Fishes, the last of the signs (constellations not seasons), will possess a love of the sea: they will entrust their livesto the deep, will provide ships or gear for ships and everything that the sea requires for activity connected with it.*

*The consequent skills are numberless: so many are the components of even a small ship that there are scarcely enough names for things. There is also the art of navigation, which has reached out to the stars and binds the sea to heaven. The pilot must have sound knowledge of the Earth, its rivers and havens, its climate and winds; how on the one hand to ply the mobile helm this way and that, and brake the ship and spread apart the waves, and how on the other to drive the ship by rowing and to feather the lingering blades.*

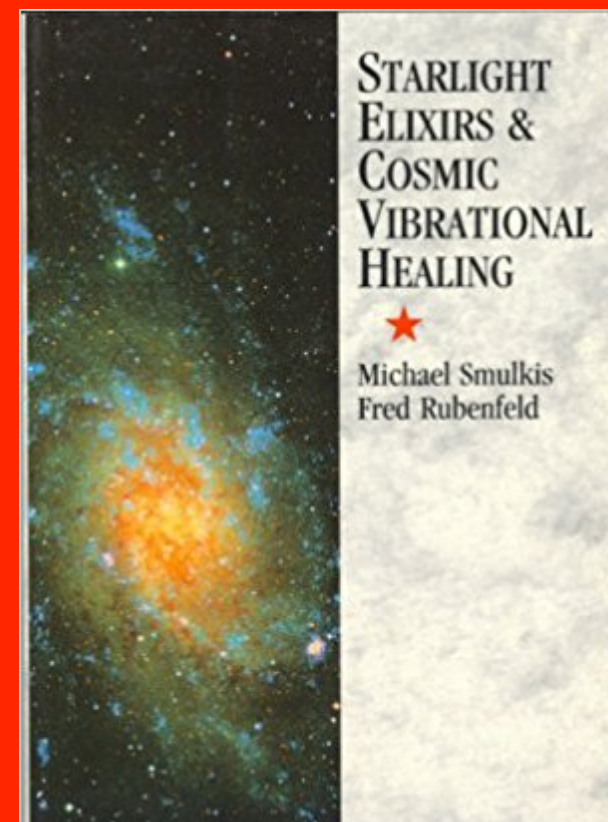

*The Fishes further impart...the desire to sweep tranquil waters with dragnets and to display on shores their own the captive peoples of the deep, either by hiding the hook within the bait or the guile within the weel. Naval warfare too is of their gift, battles afloat, and blood-stained waves at sea. The children of this sign are endowed with fertile offspring, a friendly disposition, swiftness of movement, and lives in which everything is ever apt to change.*

The Book *Starlight Elixirs and Cosmic Vibrational Healing* says Alrishi is aiding us in releasing old patterns as we transform into a new way of being.

This is about accessing greater awareness of the limiting patterns standing in the way of feeling our deep feelings and experiencing real forms of communication.

In this watery area of the sky compassion, acceptance and kindness are keys to liberation.

Uranus with Al Rishi in 2018 further expands the influence of these stars accelerating the release of old (no longer useful) patterns up leveling yet again our ability to experience the truth of who we really are.

# Durga as Aries Goddess

**Durga** is a much-loved Hindu Warrior Goddess and World Protector. Kali is said to have been born from her. Like Sekhmet she brings about Justice and Restoration of the Cosmic Order in a time of Chaos and Imbalance

According to some sources Durga is the ultimate Great Mother Goddess and Source from where all other Goddesses and all of Creation emerges.

**Durga Mantra: Om Dum Durayai Namaha**  
*Salutations to the feminine energy that protects from all negative influences.*

**[Listen to Chant HERE](#)**

# Durga Restores the Cosmic Order

A great battle between Durga and two powerful demon brothers, Shumbha and Nishumbha is described in the Devi Mahatmya (Greatness of the Goddess) Song Story, show Her as Protector of the Cosmic Order.

The demon brothers, because of the rigor of their spiritual practice, had been granted a boon whereby they could be defeated by “no man or god.” They conquered the world, casting out all the gods and taking the Earth as their playground. In their greed and ambition the world was cast into disharmony, suffering and chaos.

Desperate to find a solution to their problem, the gods discovered a loophole in the brothers’ invincibility: no mention had been made of a Woman, or Goddess.

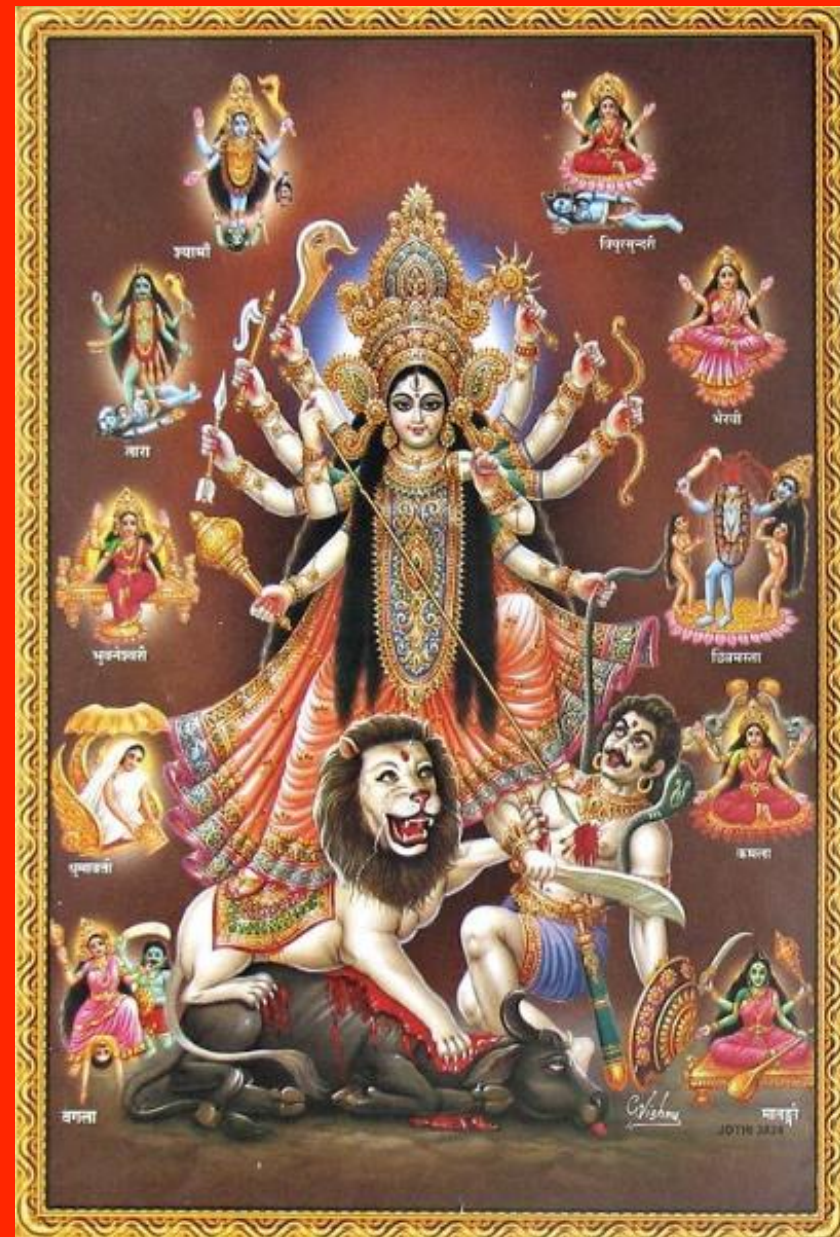

# Durga Restores the Cosmic Order

The gods petition Durga for 20,000 years until she finally agrees to help. She initiates a battle with the brothers and their powerful army calling forth Kali and a host of innumerable Goddesses to defeat the demon brothers.

The brothers accuse her of cheating, as she promised she would fight alone. She roars her reply: “These Goddesses are parts of myself, I alone exist in the world. What second, other than me, is there?”

At the moment of Shumbha’s death at Durga’s hand he utters the word “Ma” and smiles, filled with the ecstasy of the Goddess. In an instant he and his brother dissolve into Durga, returning home to the Great Mother.

# Aries and Sekhmet

**Sekhmet** is the mighty Lion Headed Goddess Queen from Egypt. Her name comes from an ancient Egyptian word Sekhem meaning “power” or *she who is powerful*. Sekhmet’s power transforms through action.

**She is one of the many Goddesses we can connect with as an ally in this Aries Venus Cycle.** She is asking us to claim our noble cause or worthy mission and take action to restore the cosmic balance.

Sekhmet wears the Solar Disk with Uraeus (snake) on her head.

She represents the full power of the Mid-Day Sun, her fiery breath created the desert.

She is known as the Scarlet Lady, the Lady in Red, the essence of majesty, royalty, and the fierce power of the lioness.

Her Qualities include Protection, Banishing, Dealing with Anger, Fury, Rage, Depression, Menopause, Willpower, Strength, Courage, Assertive Behavior, Sexual Energy, Kundalini

# Sekhmet is a Warrior Goddess

The feminine eye of the Sun, the Daughter of Ra (the Sun God) who sent her to restore balance and punish (patriarchal word) those who were no longer upholding the cosmic order. Sekhmet went on a holy rampage - consuming, digesting and alchemically transforming all the negative energy she encountered.

Once she started she was unstoppable - until she was tricked into drinking what she thought was blood but really was a mixture of beer and pomegranate juice designed to drug her.

When she woke up the first person she saw was Ptah. She instantly fell in love, and they became husband and wife. Later Sekhmet gave birth to Nefertum, who was the precursor to Asclepius.

Sekhmet, Ptah and Nefertum became the Memphis trio, known for their healing abilities.

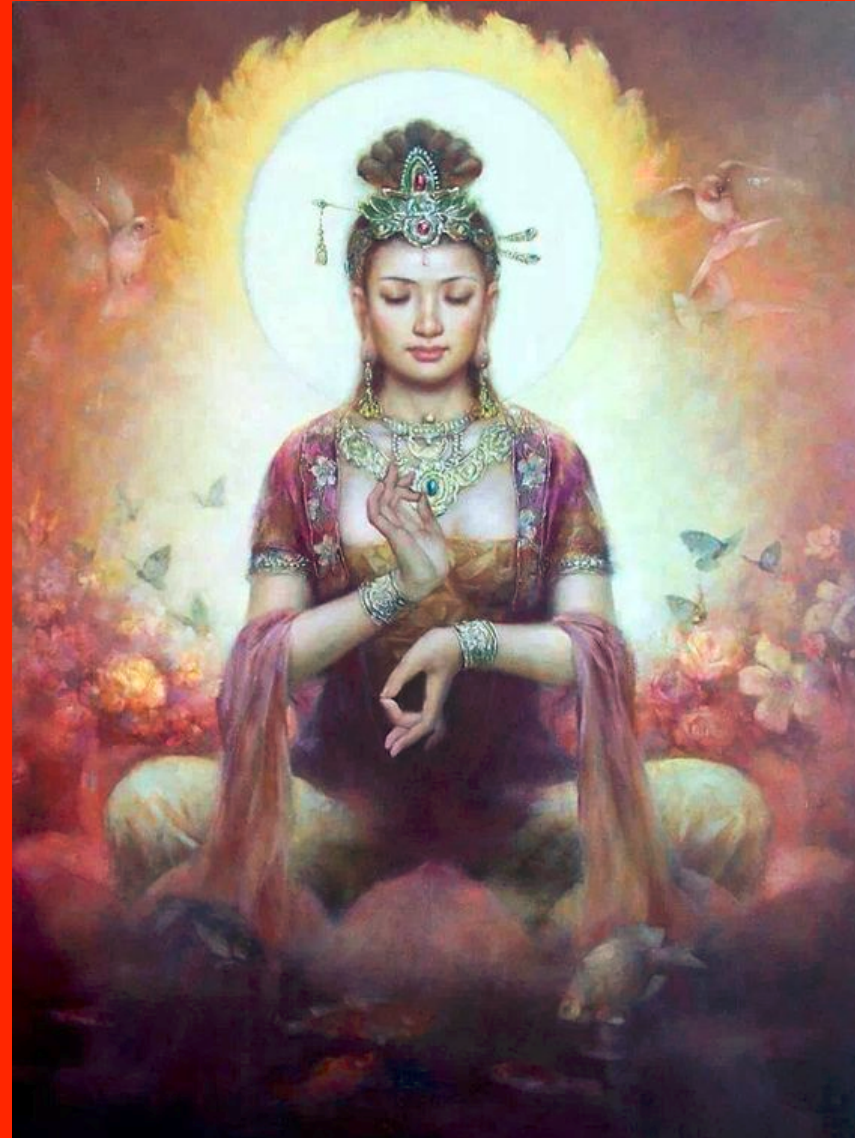

# Rise of the Compassionate Warrior Goddess of Love

## Aries to Pisces Bridge Venus Cycle

When Venus Officially Rose as Morning Star around March 31, she quickly regressed into Pisces where she was for most of the first month before returning to Aries. Then she Rose as Evening star in Pisces in February, 2018.

This, along with the location of Venus location in the Fish Constellation at Morning Star Rise and Evening Star First Gate (see Night Sky Slides) suggests this Final Aries Cycle is a Bridge cycle as the Aries Meta Goddess is already beginning to feel the influence of the Pisces Meta Goddess.

The question is - how can this Rise of the Fierce Feminine, Warrior Goddess be informed by Compassion, Empathy, Love, and an Awareness of the Connection Between All Things?

## **Defining the Wild Woman**

*In every woman there is a wild and natural creature, a powerful force, filled with good instincts, passionate creativity, and ageless knowing. Her name is Wild Woman, but she is an endangered species. Though the gifts of wildish nature come to us at birth, society's attempt to "civilize" us into rigid roles has plundered this treasure and muffled the deep life-giving messages of our own souls. Without Wild Woman, we become over domesticated, fearful, uncreative, trapped.*

**The Wild Wolf Nature** *Healthy wolves and healthy women share certain psychic characteristics: keen sensing, playful spirit, and a heightened capacity for devotion. Wolves and women are relational by nature,*

*inquiring, possessed of great endurance and strength. They are deeply intuitive, intensely concerned with their young, their mate and their pack. They are experienced in adapting to constantly changing circumstances; they are fiercely stalwart and very brave...*

**How does the Wild Woman affect us?** *With Wild Woman as ally, as leader, model, teacher, we see, not through two eyes, but through the many eyes of intuition. When we assert intuition, we are therefore like the starry night: we gaze at the world through a thousand eyes. The Wild Woman carries the bundles for healing; she carries the medicine for all things. She carries stories and dreams and words and songs and signs and symbols...*

**~Clarissa Pinkola Estes Women Who Run with the Wolves**

**Since the Wild Woman is Rio Abajo,  
The River Beneath the River,  
When She Flow into us, we Flow.  
If the aperture from her to us  
is blocked we are blocked.**

# Questions for Aries at the Root Chakra

In what ways have I shifted from burnout to balance and what more can I do to support that process?

How have I shifted any personal patterns of survival operating from the sympathetic nervous system's tendency toward *Fight, Flight or Freeze*, to greater ease in the parasympathetic nervous system operating from thriving and expert efficiency? What more can I do to further this experience?

How am I showing up to further my worthy cause or mission - while also letting go of the need to be a hero or the one who rescues others at my expense?

How can I work with others to more easily accomplish my mission and purpose?

## Roar Video

On Youtube by Katy Perry

I used to bite my tongue and hold my breath  
Scared to rock the boat and make a mess  
So I sit quietly, agree politely  
I guess that I forgot I had a choice  
I let you push me past the breaking point  
I stood for nothing, so I fell for everything

*[Pre-Chorus:]*

You held me down, but I got up (HEY!)  
Already brushing off the dust  
You hear my voice, you hear that sound  
Like thunder gonna shake the ground  
You held me down, but I got up (HEY!)  
Get ready 'cause I've had enough  
I see it all, I see it now

*[Chorus:]*

I got the eye of the tiger, a fighter,  
dancing through the fire  
'Cause I am a champion  
and you're gonna hear me roar  
Louder, louder than a lion  
'Cause I am a champion  
and you're gonna hear me roar  
Oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh  
You're gonna hear me roar

I'm floating like a butterfly  
Stinging like a bee I earned my stripes  
I went from zero, to my own hero

*[Pre-Chorus: repeat]*
