Virgo in Greek is *Ergon*, Latin is *Erigone*. *ERI* – early (referring to early in the day) and – gone refers to child, procreation, seed. Greek *ergon* derivatives in English are: energy, erg, ergonomics, work, organ, organize.

Manilius, in his book *Astronomica*, written in the 1st Century AD described *Erigone* (Priestess) as a constellation that bestows high eminence through supreme power from living the sacred code, tending with reverence the hallowed temples of the gods.

Astraea, Greek for *starry*, was the last goddess to leave the Earth when humans became violent, greedy and unjust connecting this constellation with the Justice card in the Tarot. As Queen of the People, Astraea assembled the elders to spread kindness abundantly supporting everyone's needs through her kindness.

In the book *The Secret Teachings of All Ages*, Manly P. Hall describes how the Assumption of the Virgin Mary is a parallel to Astraea rising into the Heavens when “she flew away to the stars”. The Catholics Celebrate the Assumption of Mary on August 15 but in current times this actually happens late October. This constellation disappears around September 13 traveling with the Sun into Early November when it rises into the morning sky.

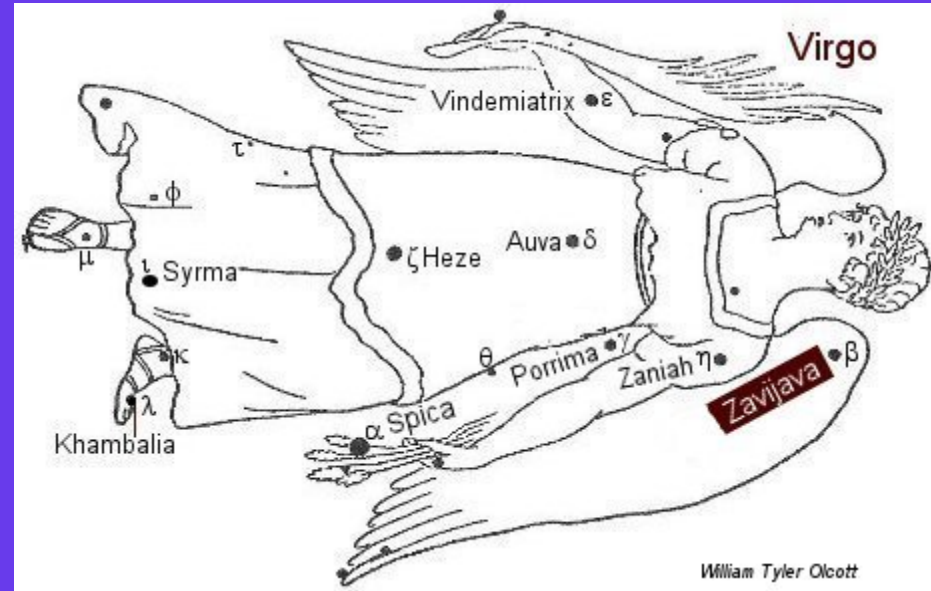

The constellation of the Virgin Priestess as depicted by the Denderah Zodiac of ancient Egypt and Thebes identified with the Goddess Isis of ten thousand names, who formed the Milky Way when she dropped the wheat from her hand. [Allen, Star Names].

Zavijava (27 Virgo 22) the Arabs saw it as the hind leg of the Lion. Zavijava or the *Gloriously Beautiful* was linked with Zaniah, known as the Lady of Heaven.

A reference to Ishtar via the Babylonians. As a Euphratean lunar asterism these stars bore the title **Ninsar** similar to Ishtar and Inanna. Thought to bestow beneficence and power.

Zaniah (4 Libra 44) was considered the maintainer of law and to the Chinese it was Heaven's Gate. The Babylonians and Greeks saw this star with Venus as favorable for worldly gain.

Those born with Venus near Zaniah were quick to learn, had musical and artistic ability and/or deep appreciation for both, as well as being fond of society and having many friends.

Living in a Time of Prophecy

Upon suffering beyond suffering; the Red Nation shall rise again and it shall be a blessing for a sick world.

A world filled with broken promises, selfishness and separations.

A world longing for light again.

I see a time of seven generations when all the colors of mankind will gather under the Sacred Tree of Life and the whole Earth will become one circle again.

In that day there will be those among the Lakota who will carry knowledge and understanding of unity among all living things, and the young white ones will come to those of my people and ask for this wisdom.

I salute the light within your eyes where the whole universe dwells.

For when you are at that center within you and I am in that place within me, we shall be as one.

Star Prophecies of the White Lions

The White Lions of Timbavati Africa were believed by Zulu and African Traditional people to be Star Beings come to Earth.

Their fate is believed to be connected to the fate of humans.

Due to hunting, capture for zoos and habitat loss there was a time when none were left in the wild, only in captivity.

Now the wild population is growing restoring the White Lions to their rightful place.
