The Libran Goose Story

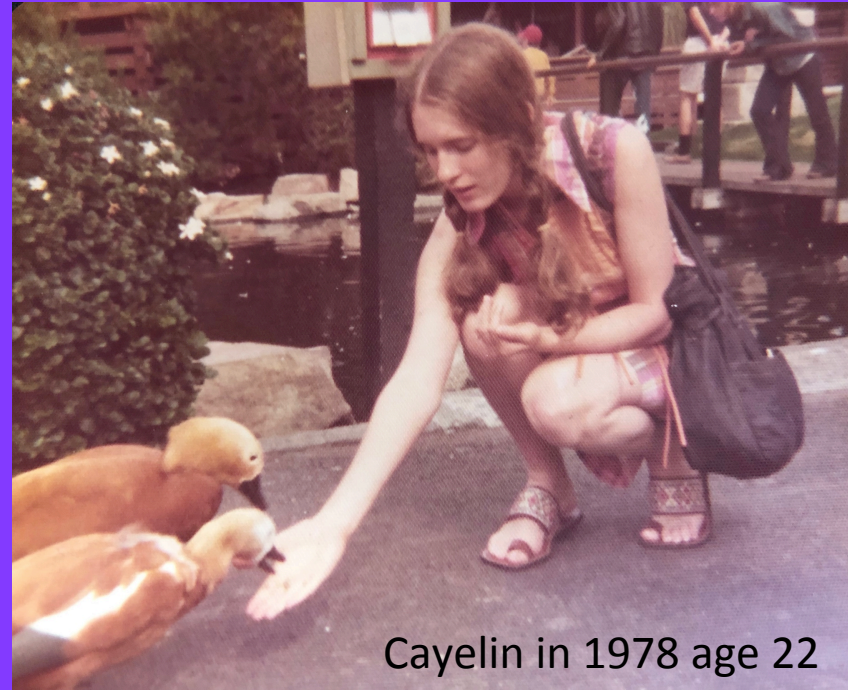

Geese fly in “V” formation because:

- As each bird flaps its wings, it creates an uplift for the bird immediately following.
- By flying in a “V” formation, the whole flock adds at least 71% more flying range than if each bird flew on its own.
- ***People sharing a common direction and sense of community can get where they are going more quickly and easily because they are traveling on the thrust of one another.***
- When a goose falls out of formation, it suddenly feels the drag and resistance of trying to go it alone ... and quickly gets back into formation to take advantage of the lifting power of the group.
- ***If we have goose sense then we stay in formation with those who are headed the same way we are.***

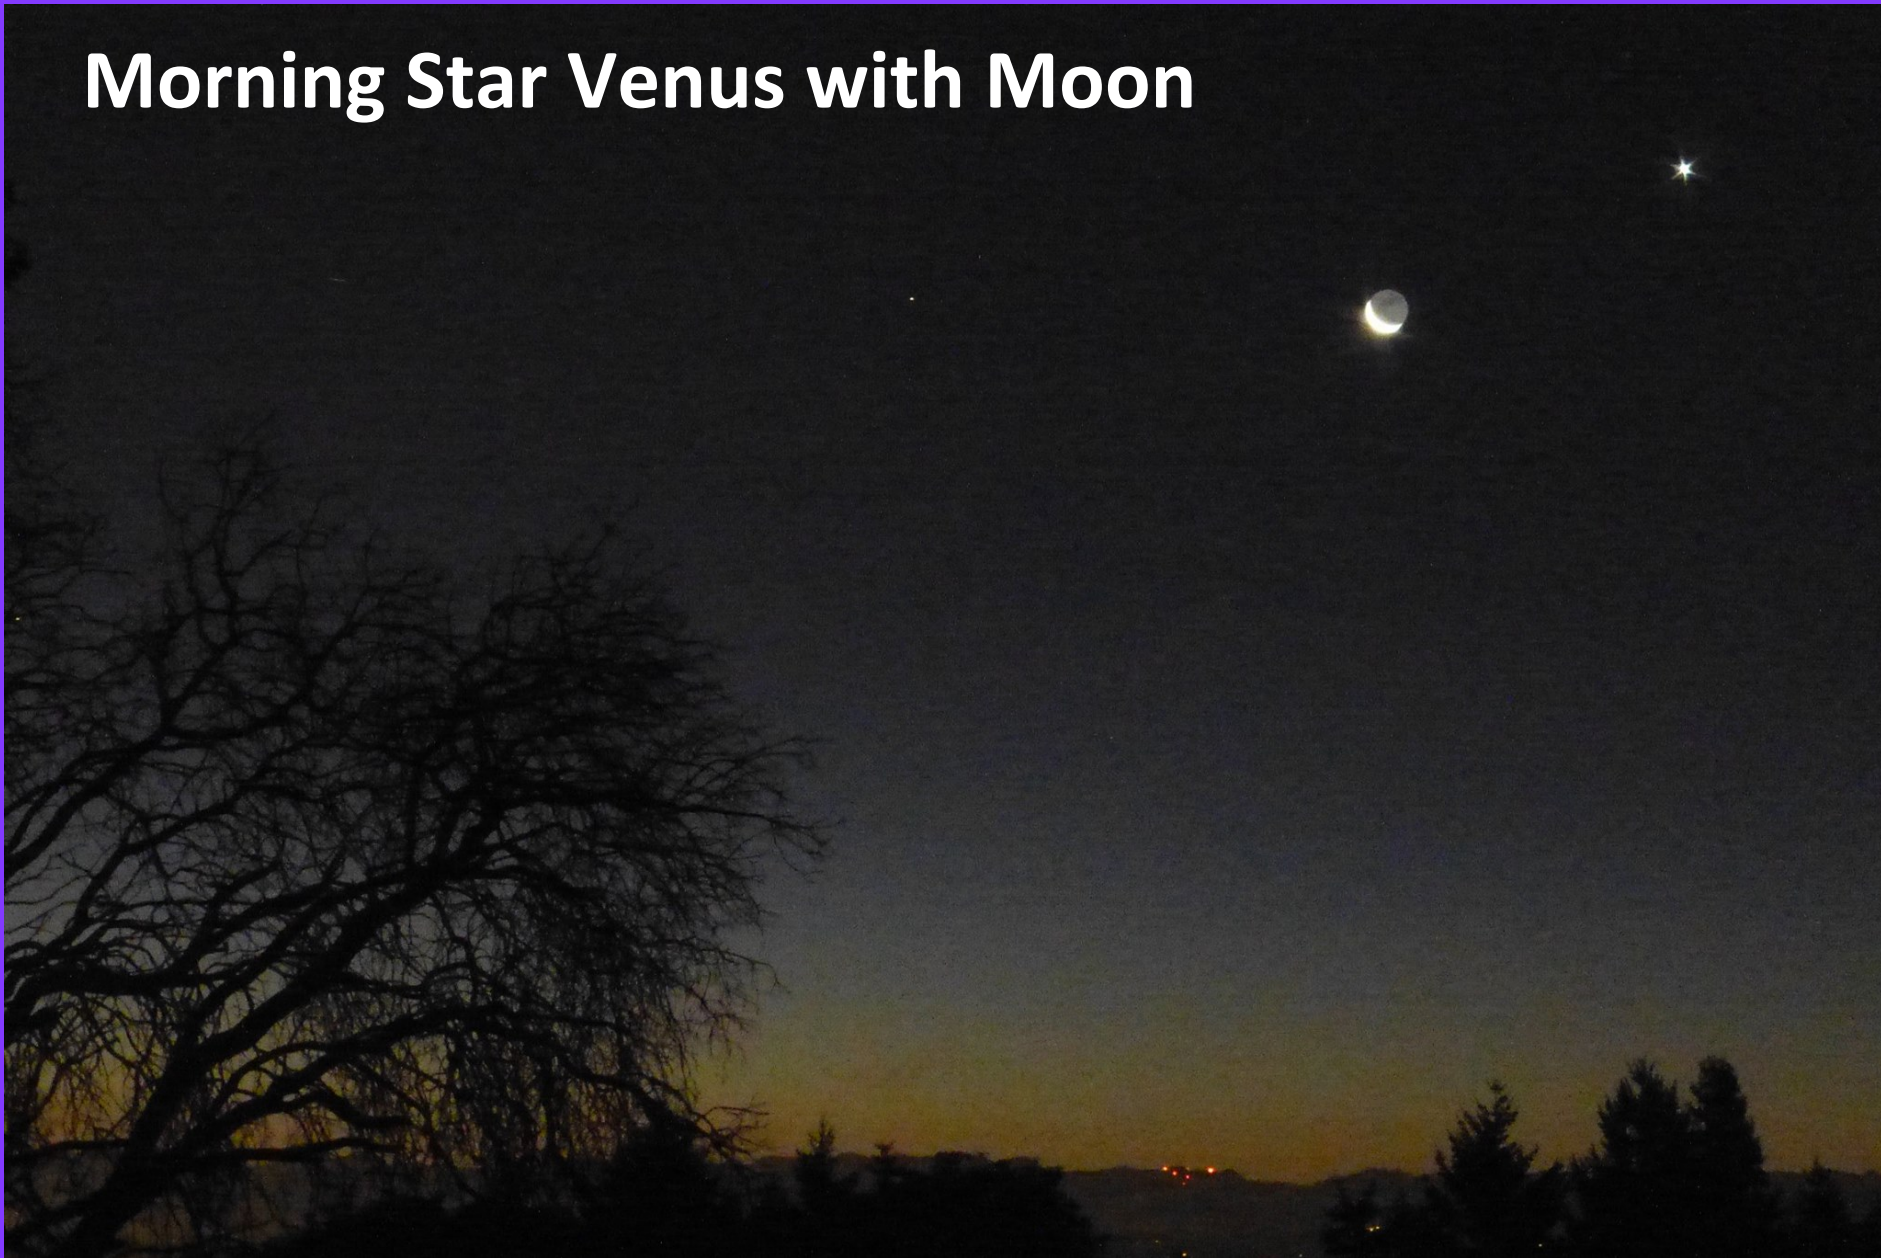

There's a river of birds in migration ... a Nation of Women With Wings.

- When the head goose gets tired, it rotates back in the wing and another goose flies point.
- *It is sensible to take turns doing demanding jobs.*
- Geese honk from behind to encourage those up front to keep up their speed.
- *How are we encouraging others?*
- Finally when a goose gets sick or is wounded by gunshot and falls out of formation, two other geese follow it down to lend help and protection. They stay with the fallen Goose until it is able to fly or until it dies. Only then, do they launch out on their own or with another formation to catch up with their group.
- *If we are sensible like geese, we will stand by each other like that.*

Jupiter is here

The serpent symbolizes Life Force or
Kundalini.

Ophiuchus, as the Serpent Bearer, holds
the key to the importance of Kundalini, life force energy - wholeness through healing our life
force energy.

Ophiuchus/Aesculapius, had Healing Temples near healing springs throughout Greece. After
fasting and bathing, the patient spent the night in special 'dream incubation chambers' in these
temples. The dreams of the patients helped to diagnose illness and suggest a healing protocol.

When any planet travels through this constellation and by this star it is a time when it is
beneficial to pay attention to your dreams and to ask for dream messages that will guide you
toward your next steps. See Links on Class Page for more about the Serpent Bearer.

Libra Meta Goddess 6th Chakra

Moving through Scorpio

January 1 to January 7

The Libra Meta Goddess is surrendering her co-dependent attachment to others' perceptions opening to her personal knowing and intuition, accessed through the feeling realms.

This is about uncovering the areas where we have shut down our life force energy and manifesting power to keep the peace or maintain harmony in our relationships.

With this knowledge we can choose to be fully feeling, clearing and releasing all blocks to accessing our greatest vision for our lives accessing the energy to manifest this vision into manifest reality!

We are also releasing any and all ways we have lost a connection to our natural capacity as magic makers!

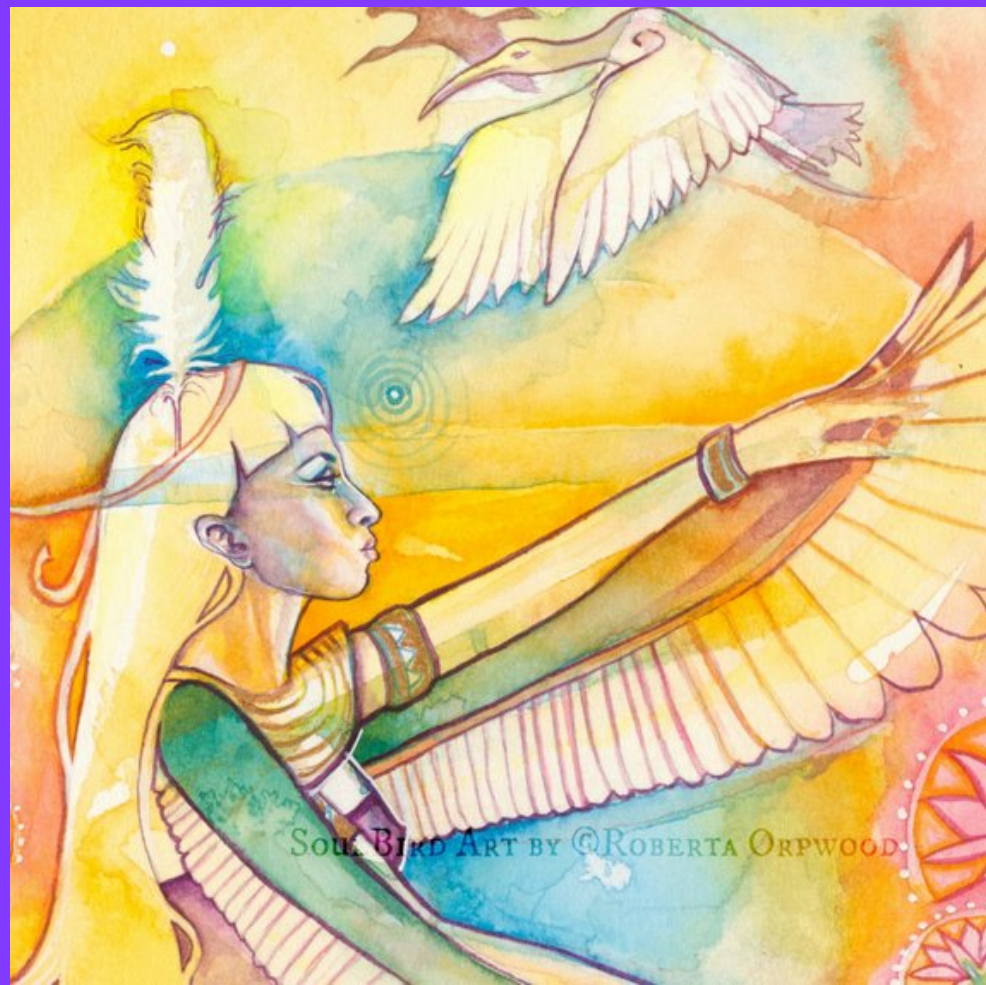

Libra Meta Goddess At the 6th Chakra Moving through Sagittarius January 7 to January 31

The Libra Goddess joyfully relinquishes any and all false perceptions and beliefs hindering full access to her own expanding experience of truth and personal vision.

This is about being aware of how intuitive knowing of the relational feminine has been stifled and repressed over eons and now we can enact the healing of that wound, honoring our brilliance and insight around the connection between all things.

It is about fully and completely surrendering any and all relationship dynamics that diminish our spiritual sovereignty and being open to the truth that is only accessible to us through our unique individual life experience and gnosis. **@Venus Alchemy**

Libra 3rd Eye Chakra Healing: God as Male

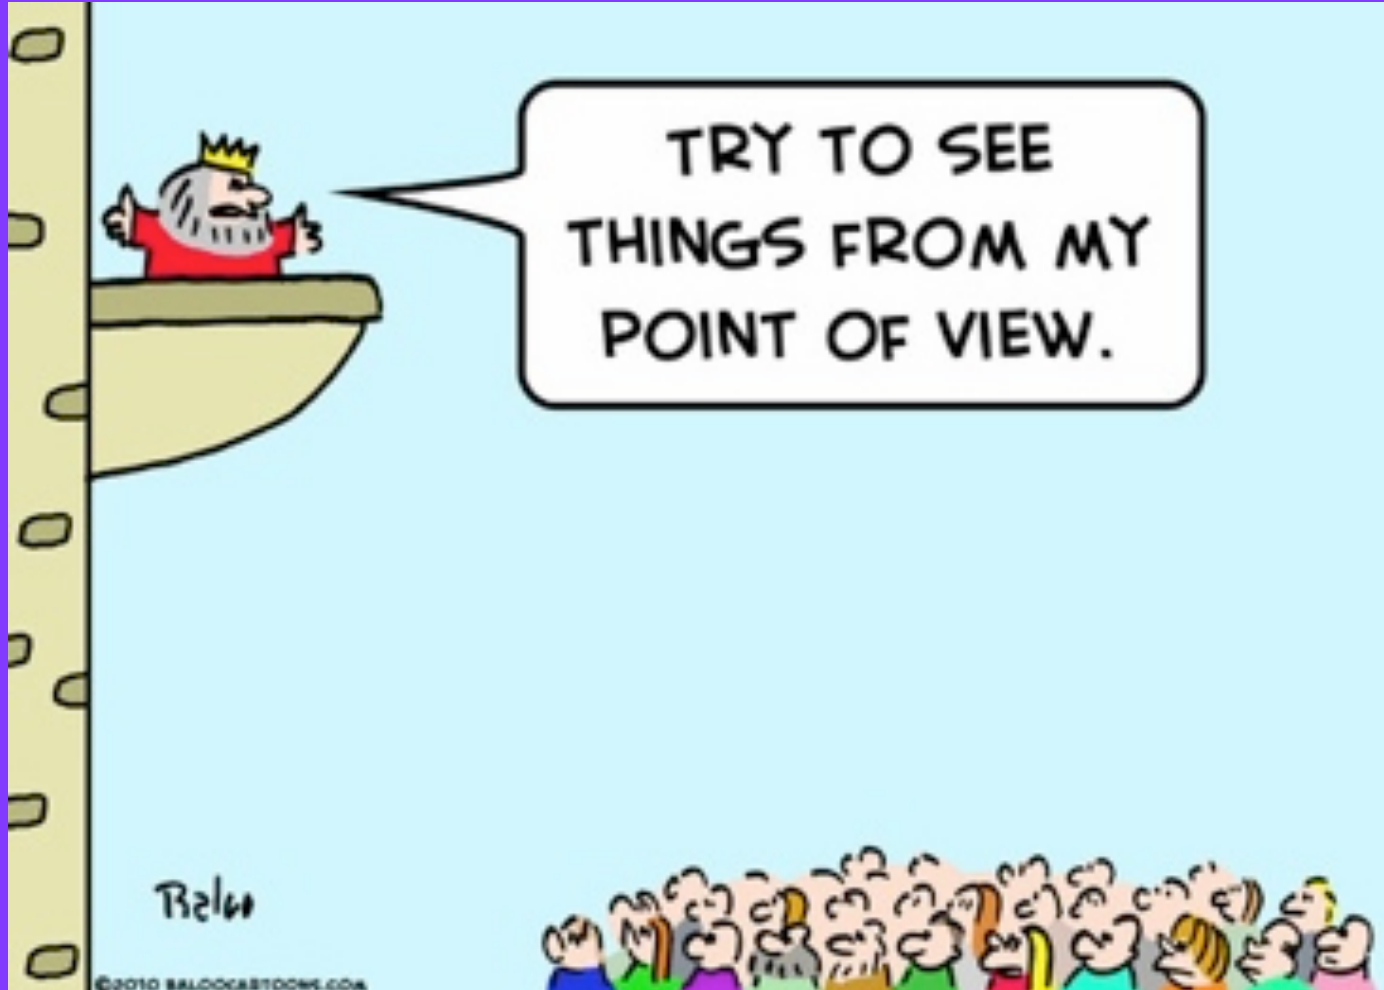

At this gate we may encounter the distortion of Cultural Conditioning identifying a Male Only Patriarchal God Who Must be Worshipped

And God spoke all these words, saying, "I am the Lord your God, who brought you out of the land of Egypt, out of the house of slavery. **You shall have no other gods before me.** You shall not make for yourself a carved image, or any likeness of anything that is in heaven above, or that is in the earth beneath, or that is in the water under the earth. You shall not bow down to them or serve them, **for I the Lord your God am a jealous God, visiting the iniquity of the fathers on the children to the third and the fourth generation of those who hate me ...** Exodus 20:1-26

Who is this Jealous God who demands praise and glory above all others, threatening iniquity for the generations to come if hated?

Is it True? Can you absolutely know it's true? How do you react, what happens, when you believe that thought? Who would you be without that thought?

3rd Eye Chakra Perspective Shift

What if your perception of not having done enough, or accomplished enough, or evolved enough, is NOT True?

What if where ever you are now is more amazing and a way bigger accomplishment than you have previously given yourself credit for doing?

Libra at the 6th Chakra: Codependency and Perception

Shadow of Libra can show up as co-dependent or people-pleasing.

At the 6th Chakra Gate this may show up as a block around our personal perceptions being in conflict with the perceptions of others.

What Would You Know to Be True if You Claimed Your Own Spiritual Sovereignty?

How Might Your Perceptions Open If It Became OKAY to Perceive Differently Than Loved Ones?

Libra Goddess Healing Inherited Miasms

As a Culture Bearer/Householder Sign, Libra is releasing patriarchal cultural patterns at every stage of her Morning Star Descent.

And Surrendering the miasms she inherited from her family and culture.

Miasm literally means fog or cloud in the being.

Inherited Miasms are imbalances of perception and wellbeing passed from generation to generation

“Miasms live in the space between the two worlds of energy and matter and their far-reaching tendrils influence our thoughts, our intentions, our life choices and the physical way in which we tell the stories of our lives. They are by far the greatest, unseen energetic influence in the progression of humanity and individual choice.”

Cultivating and Living a Magical Life

Magic is a perpetual permanent presence that has been nearly forgotten.

We are not separate from Magic – we live within it.

Separation has occurred as a result of cultural conditioning – patriarchy has worked to stamp out magic replacing it with the belief that Man was designated by God to rule over nature.

Releasing Blocks to Cultivating Magic

What Cultural and Family Beliefs Still Hold you Back from FULLY reclaiming your personal Relationship with Magic?

Do you know and experience Magic is not only possible – it exists throughout creation?

Are you aware of and do you experience Magic in your Life?

Every part of the Earth is Sacred...

...Most especially in the liminal spaces and portals that provide access to other dimensions or perceptions of reality

Magic is within every part of our world when we know how, or are willing, to see it.

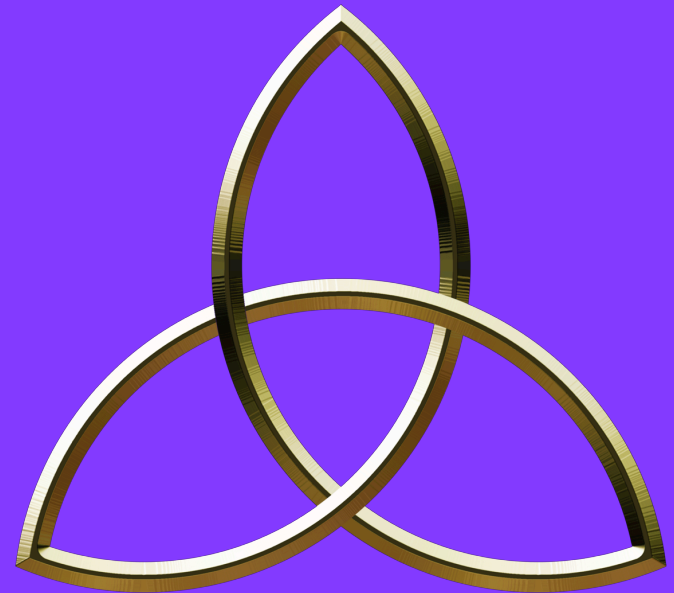

The Circle or Spiral of life is Magical - where we encounter a continuous turning and returning through all perspectives and possibilities within the whole of life.

Cultivate your relationship with magic by welcoming **the mysterious, the magical, the miraculous** into your life.

The Triquetra is a symbol (or perspective) intersecting at magical points beyond rational and linear understanding. It is inspired by the Power of 3 (Infinite Love, Infinite Wisdom and Infinite Power)

Practices for Energizing Magic

Create your own sacred space in nature near you. Ideally, find a place you can connect with the stars in the sky.

Could be your back yard, a near by local, state or national park.

Know your electro magnetic energy interacting with the Earth is what amplifies the sacredness of the place you choose.

Honor, revere, respect, connect with that space on a regular basis.

Construct a circle of stones or cairn mound and fill it with your loving intentions

Engage it often, bring offerings, say prayers, sing songs to the spirits of the land, to the trees, plants and animals, to all that is seen and unseen.

Home Play Practice

For one week, track your negative beliefs and self talk in your Venus Journal. Don't try to change it, just take note of it.

When the week ends, use a full page of your Venus Journal to sketch a simple outline of your body.

Write the key negative beliefs or phrases all over the outline of your body in black and white.

Now do a releasing ceremony where you burn this image and envision your own body becoming clear.

Draw another outline of yourself and fill it with Positive beliefs actively countering the old beliefs. Put this somewhere you see it daily.

Write these words in color, perhaps adding flowers, butterflies, animals or guides who surround, support and love you.
