How would it feel and what would it take to fully enliven your Inner Goddess so she is guiding you toward fulfilling your soul's purpose?

All Venus Alchemy classes invite you to experience the ceremonial, initiatory dimension of Venus in our personal lives, as well as in the collective. Each Class Series invites a more direct experience of the Goddess in all her unique and evolving expressions as we continue with the evolutionary leap now underway at this dawning of a new era. This course is all about you and the way Venus impacts your life personally. You will benefit greatly from this in-depth exploration, even if you already know your Venus MetaGoddess, Chakra Gate, and Venus Star Phase, however - if you do NOT know these things, an added benefit of the class is that you have access to all the information covered with just your birthdate. We use guided meditations, journaling, movement, and other innovative teaching tools to reveal the mysteries in new ways. We also used the power of intent and invocation, the power of questions, and the power of awareness to catalyze a deeper understanding of these Mysteries.

Thank you Cayelin and Tami for your work with Venus. I studied psychology at the university and have read many self help books, taken retreats and webinars to try and understand this energy that I've been living with for years. Now thanks to this Venus work, I'm finally feeling seen/understood and at home with this Alchemical energy. MJ

Rave: It's been a radical! and sometimes tumultuous journey so far for me in this Venus Return; a lot of life changes and experiences to navigate, yet, every step of the way I have felt profoundly supported by you, Cayelin, and Tami and the sacred container that is Venus Alchemy. I have been brought more clearly into focus around the Sacred Work that is truly mine to do and I am so grateful. ~ Elizabeth

Rave: The Venus teleclass was a profound experience that deepened my knowledge and experience with the Inanna myth. This class really adds a dimension to the Divine Feminine mysteries that is at once revelatory, new and yet ancient. Brava to Cayelin, Tami and the Shamanic Astrology lineage for bringing us this missing link. I am so grateful and blessed to receive and partake of this knowledge and these mysteries.
