The Ishtar Gate

The Ishtar Gate

The 8th Gate Into Babylon

Constructed around 575 BC by order of King Nebuchadnezzar II on the North side of Babylon

Originally on the list of the [7 Wonders of the World](#) the Ishtar Gate was replaced by the Lighthouse of Alexandria

The gate was covered in blue lapis lazuli stone 50 yards high and half a mile long

Lions, dragons, and bulls were carved into the gate

The Processional Way ran through this gate

It was excavated in the early 20th century and a reconstruction using original bricks is now in the Pergamon Museum, Berlin

Ascension As Full Earth Presence

This is the Ascension Gate as Inanna emerges from her Underworld Journey, “ascending” from the Underworld into the World.

This is Ascension INTO the Earth realm, where the Queen of Heaven re-emerges into the World as the fully initiated Goddess.

How does our perception of Ascension change when we consider Ascension INTO the Earth realm rather than up and OUT of it?

How do we consciously and creatively ascend into our true self?

What if our Full Feeling Presence on Earth is What Causes Us and Her to “Ascend” to the 5th State?

Beyond Karmic Debt at the 8th Chakra

Karma has become a habitual orientation. To be free, one must recognize that karma is now a limiting belief and accept its release. Expansion is different from cycling through the same energy over and over again. Recognition of release of the karmic imperative frees us all from the repetitive cycle! ~Sri Ram Kaa, Kira Raa, [2012 Awakening: Choosing Spiritual Enlightenment over Armageddon](#)

I recommend a brief daily practice of revoking all agreements to experience hardship, limitation, bad relationships, health problems, financial problems, family dysfunctions, and anything else in your life that is energy-draining.

~Cameron Day [Why I Am No Longer a Lightworker](#)

The 8th Chakra encourages us all to re-examine family-of-origin doctrines and to finish soul learning. Many people would suggest that you also make reparation for what you did in past lives. Personally I believe the real goal behind this Chakra is to stop making the past more important than the present. ~Cyndi Dale, [The Intuition Handbook](#)

*For sin shall not have dominion over you: for ye are not under the law, but under grace.
~ New Testament, Christian Bible*

The 8th Chakra is our portal into and out of the Time/Space continuum.

This chakra connects to the **Akashic Records**, the **Book of Life**, and the **Shadow Records** (*The Book of Shadows*)

The **Akashic Records** are the “books” where all we have ever seen, done, or said, in this life or any other is recorded.

We can journey to any place that exists in the present or in other dimensions, and explore potential or desired futures. **The Akashic Records meticulously presents the facts.**

The **Book of Life** offers only **positive perspectives** on what has occurred or what will happen.

It allows the viewer to read the past, present or future through rose-colored glasses, seeing the benefit of all experiences, thoughts, or interactions.

*The **Shadow Records** hold what was **never done, said, or thought** and is especially useful for clearing regret, the belief that we have lost or might lose a desirable opportunity.*

Our Power is Now: the 8th Chakra

Releasing Karmic Debt

***Our point of power
is always Now.***

In the present moment, we can choose what we take from the past - from our ancestors, from re-incarnational dramas, from the ghosts who may be walking beside us - and what we will leave behind, once and for all.

*If you think you are connected to personalities in other times - that you have past lives and future lives - then **consider the possibility that it is all going on now and that you can reach to those other possible selves, mind to mind, for mutual benefit.***

Don't trap yourself in negative stories, from this life or any other, that binds and confines you.

In this moment of Now you are free to claim a bigger and braver story.

**~Robert Moss, from his book
[The Boy Who Died and Came Back](#)**

Jumping Timelines

Whenever there is an increase in chaotic events there is a convergence of multiple timelines. Due to the fact that your planet has entered a chaotic node and is experiencing ever increasing levels of chaos.

There is also an increase in what we call time nodes. Time nodes occur when two or more timelines converge as a result of their proximity.

Creative and novel effects often occur within timelines when they enter a time node proximity to other timelines. These are evolutionary jump starts that hold tremendous possibility for accelerated evolution if you understand how to utilize them.

We believe this information has vital significance for those of you engaged in the ascension process and for its sheer survival value.

Jumping Timelines

*You already possess two of the greatest treasures in your very own nature - **your sovereign will (to make choices)** and **your capacity to feel**.*

These two, when combined properly allow you to jump timelines as you so desire, as co-creators of your reality rather than being mere pawns on a chessboard.

The fundamental principle, for jumping timelines, involves the coordination of a few significant fields of intentionality. ~Tom Kenyon, from the Hathor Archives

1. You identify the timeline you wish to move into.

2. You shift your vibrational state to match the timeline.

3. You lock in the vibrational state so it does not waver.

4. You take an action that is an expression of the new timeline.

5. Persevere.

Anchors of Light

There is an incredible propulsion of opportunity now that's here that is taking more of us than ever before on that wave. Those of you who are innovators, those of you who are creators, those of you who are pioneers of new ways of being - a more conscious, more peaceful, more community focused way of being.

Those of you who are that group, you are going to find this an extraordinary time as the connection energy is rising again, the ability to move forward with your plans, the ability to divinely create with energies that come through you.

Kindness Changes the World

Kindness is Healthy for Our Hearts. Acts of kindness also increase our sense of connection with others and increases the feel good hormone oxytocin and that releases Nitric Oxide lowering blood pressure. This is true for those who perform the act of kindness, those who receive the act of kindness and those who witness the act of kindness.

Kindness is link to happiness. When we are kind to others, we feel good physically, mentally, emotionally and spiritually. Kindness elevates the feel good hormone Dopamine.

Kindness lowers inflammation in the body thus slowing the aging process again through the release of oxytocin and the stimulation of the Vagus Nerve.

Kindness is good for our relationships creating deeper bonds of love and trust reducing the emotional distance between us. We are wired for kindness and cooperation in ways that strengthen our relationships and help us create new ones. Its in our DNA.

Kindness is Contagious. Our kindness inspires others to be kind – activating a kindness revolution that spreads into our culture and our world is changed.
