Alhena (9 Cancer) means Bright Foot, or the Proudly Marching One, marking the left foot of the immortal Pollux and is also linked to the wound in the tendon Achilles.

In his book *The Living Stars*, Eric Morse tells us that Alhena gives artistic abilities, especially with the written or spoken word.

Plus, this star also lends skill in the art of peaceful negotiation and moving things forward supporting this Venus Gate in moving forward with a new vision and new way of telling our personal and collective story.

3rd Eye Chakra Perspective Shift

What if your perception of not having done enough, or accomplished enough, or evolved enough, is NOT True and has never been true?

What if where you are now is far more amazing and a way bigger accomplishment than you have previously given yourself credit for?

Expanding Perception and Releasing Limited Perspectives

The Five Laws of Existence/Creation from Bashar

1. You Exist
2. Everything is Here and Now
3. The One is the All and the All are the One
4. What you Put Out is what you GET Back
5. Everything Changes except the First 4 Laws

These are not the laws of physics but the laws of existence that are true for everyone everywhere in every reality though out creation.

Every experience you have ever had, are having now or will ever have is some combination of these 5 laws.

When you understand with clarity this foundation, you will understand exactly how existence works, you will understand exactly how to create the realities you prefer.

Gemini at the 6th Chakra: Releasing Information Addiction

A Shadow of Gemini is “information addiction” without discernment or integration

What awareness can we Cultivate to let go of any Blocks around clear perception because we are filled to overflowing with external information making it difficult to hear the voice of our own soul’s insight or higher guidance?

Gemini Meta Goddess Affirmation for The Third Eye Chakra Gate:

Spirit curates all information so I only receive knowledge aligned with the truth and love I am here to serve and embody!

Gemini Goddess Healing Inherited Miasms

As an In Service to Spirit (Mutable) Sign, Morning Star Gemini is releasing patriarchal spiritual perception at the 6th Gate, surrendering miasms inherited from familial or cultural spiritual/religious lineage.

Miasm literally means *harmful or noxious atmosphere, fog or cloud in the being*.

Inherited miasms are imbalances of perception and wellbeing passed from generation to generation. At this gate we benefit from exploring spiritual and religious beliefs passed on to us and releasing them consciously.

“Miasms live in the space between the two worlds of energy and matter and their far-reaching tendrils influence our thoughts, our intentions, our life choices and the physical way in which we tell the stories of our lives. They are by far the greatest, unseen energetic influence in the progression of humanity and individual choice.”

Cultivating and Living a Magical Life

Magic is a perpetual permanent presence that has been nearly forgotten.

We are not separate from Magic – we live within it.

Separation has occurred as a result of cultural conditioning – patriarchy has worked to stamp out magic replacing it with the belief that Man was designated by God to rule over nature.

Releasing Blocks to Cultivating Magic

What Cultural and Family
Beliefs Still Hold you Back from
KNOWING you are a magical
being?

Are you willing to **KNOW** and
experience Magic is not only
possible – it exists throughout
creation?

Are you **AWARE** that **MAGIC** is
the essence of creation?

Do you experience Magic in
your Life?

**Magic is the true
Nature of Existence.
Miracles are the true order of
things, not the exception.
~Bashar**

Every part of the Earth is Sacred...

...Most especially in the liminal spaces and portals that provide access to other dimensions or perceptions of reality

Magic is within every part of our world when we know are willing and open to seeing it.

The Circle or Spiral of life is Magical - a continuous turning and returning through all perspectives and possibilities within the whole of life.

Cultivate magic. Intend you are living a magical life.

Welcome **the mysterious, the magical, the miraculous** into your life.

The Triquetra is a symbol (or perspective) intersecting at magical points beyond rational and linear understanding. It is inspired by the Power of 3 (Infinite Love, Infinite Wisdom and Infinite Kindness)

Practices for Energizing Magic

Create your own sacred space in nature near you. Ideally, find a place you can connect with the stars in the sky.

Examples: Back yard, open space near you near by local, state or national park

Know your electro magnetic energy interacting with the Earth amplifies the sacredness of the place you choose.

Honor, revere, respect, connect with that space on a regular basis.

Construct a circle of stones or cairn mound and fill it with your loving intentions

Engage it often, bring offerings, say prayers, sing songs to the spirits of the land, to the trees, plants and animals, to all that is seen and unseen.

The body is held together by sound. The presence of stress and disease indicates that some sounds have gone out of tune. ~Dr. Deepak Chopra

Toning Chakra Gates

One of the ways that we can come into alignment and harmonic resonance with our Soul's Signature is to resonate the chakras by toning the keynote for each chakra with our voice.

The sky and its stars make music to you, the sun and the moon praise you, the neteru (gods) sing to you. ~Hymn to Hathor, Denderah Egypt Temple Inscription

By their harmonious rays and motions penetrating everything, planets daily influence our spirit secretly, just as music does openly.

Home Play Practice

For one week, track your negative beliefs and self talk in your Venus Journal. Don't try to change, just take note.

When the week ends, use a full page of your Venus Journal to sketch a simple outline of your body.

Write the key negative beliefs or phrases all over the outline of your body in black and white.

Now do a releasing ceremony where you burn this image and envision your own body becoming clear.

Draw another outline of yourself and fill it with positive beliefs actively countering the old beliefs. Put this somewhere you see it daily.

Write these words in color, perhaps adding flowers, butterflies, animals or guides who surround, support and love you.
