Face Your Fears Exercise

In your Venus Journal, identify 1-3 areas in your life where you are postponing making a decision because it may cause pain to you and/or another. Explore the cost this procrastination is having on you—what proportion of your attention, focus, clarity, and energy are tied up in struggling with yourself around these areas?

How is this causing you to live superficially rather than with greater depth and aliveness? What would it take to choose differently?

Choose 1 to 3 of these areas and take action—reclaiming the energy you’ve been using to avoid life and choosing to MEET IT.

The Whirling Rainbow Prophecy

There will come a day when people of all races, colors, and creeds will put aside their differences. They will come together in love, joining hands in unification, to heal the Earth and all Her children. They will move over the Earth like a great Whirling Rainbow, bringing peace, understanding and healing everywhere they go. Many creatures thought to be extinct or mythical will resurface at this time; the great trees that perished will return almost overnight. All living things will flourish, drawing sustenance from the breast of our Mother, the Earth.

The great spiritual Teachers who walked the Earth and taught the basics of the truths of the Whirling Rainbow Prophecy will return and walk amongst us once more, sharing their power and understanding with all. We will learn how to see and hear in a sacred manner. Men and women will be equals in the way Creator intended them to be; all children will be safe anywhere they want to go. Elders will be respected and valued for their contributions to life. Their wisdom will be sought out. The whole Human race will be called The People and there will be no more war, sickness or hunger forever.

Marilyn Ferguson Introduction to Jose Arguelles Book: Surfing the Zuvuya

One thing has become evident:

Our culture has little understanding of myth or the role of the mythmaker. Myths are not for believing or disbelieving. They are for using!

If a myth or a metaphor works in revamping our deepest values, it is truer than the evening news or the text book fact.

Myth, Poetry, Art, and Music are truths of a different dimension – sustenance and regeneration for the tired spirit. The human brain learns best by story, by game, by a framework of meaning.
