Q&A and Connection—we're going to stay together

Wisdom Keeper Clan Mother Feb New Moon

Oh, keeper of ancient knowing,
Whisper your wisdom to me.
That I may always remember
Life's sacred Mystery.

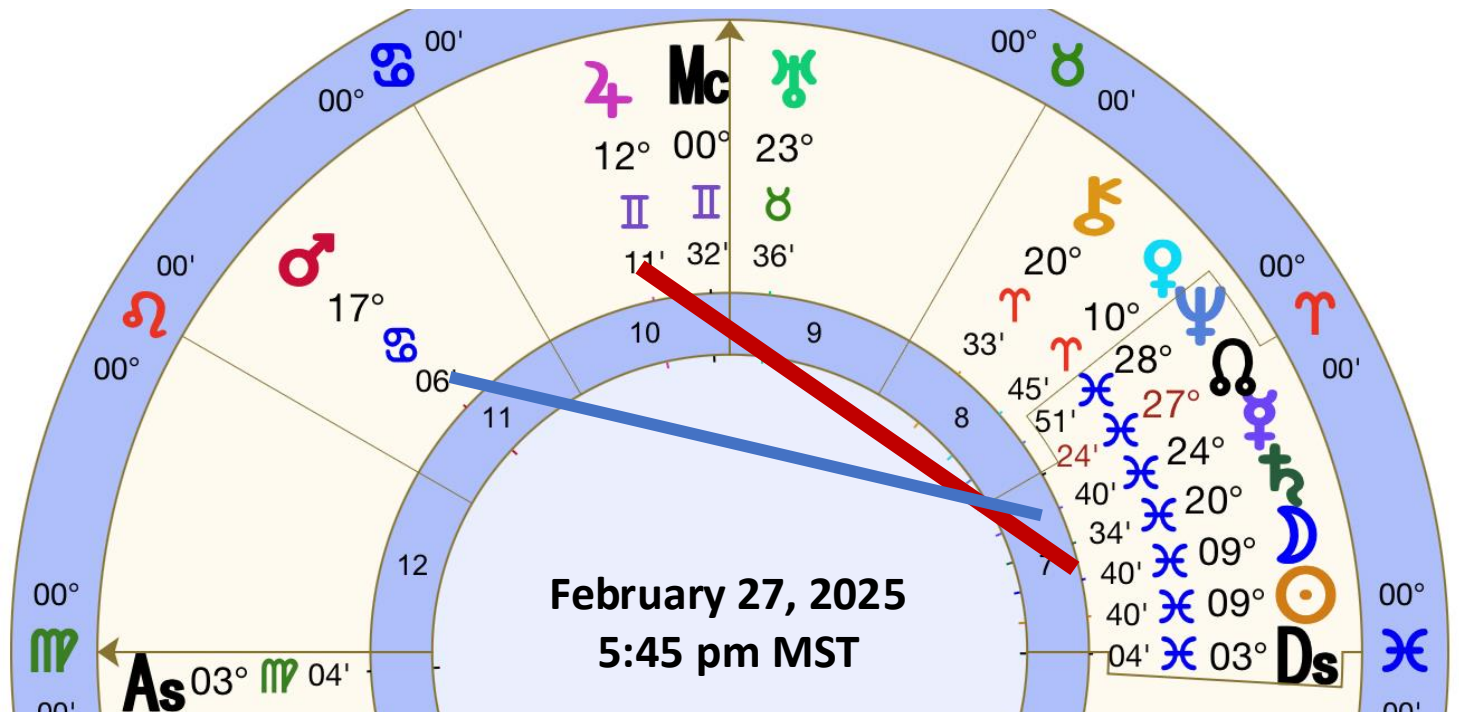

The stories of the Grandmothers,
Brave deeds, great and small,
The progress of the Faithful,
Who answer our Mother's Call.

The cycles and the seasons
That mark our every change.
The rebirth of our visions
The spirit we have reclaimed.

Here truth is the victor
Of the war that dwells within,
Bringing every human heart
To Celebration in the end.

The word **Pegasus** is believed to be related to Greek *pegai*, or *pege*, a spring, Greek *pegazo*, 'spring forth' or 'to gush forth'.

Pegasus caused springs to gush forth as he pawed the earth with his hoof, on Mount Helicon

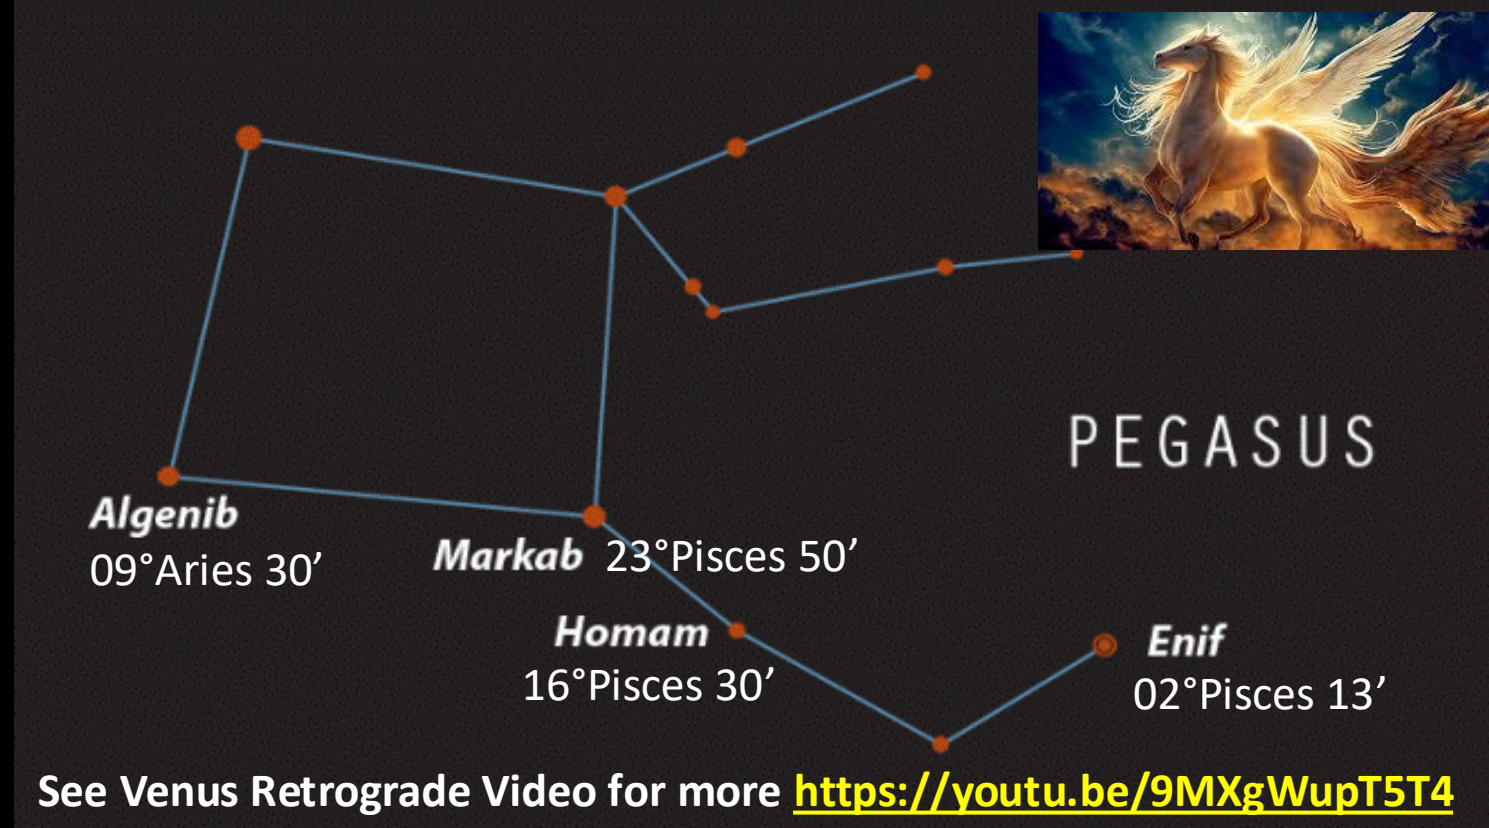

How is Pegasus carrying us into a new perspective of Venus as a combined Meta Goddess of Aries Pisces?

Aries like: Pegasus and the star Algenib give the gifts of a sharp, decisive mind, and enthusiasm. The shadow of Algenib is seen as combative, obstinate, and ruined by headstrong conduct.

Pisces like: Pegasus was known for activating springs (healing waters) that supported creative and oracular insights

Venus beginning her Retrograde aligned with Algenib and Pegasus in the Fish Constellation has the energy of being adventurous, generous, kind, philanthropic, regal.

Venus completes her Retrograde aligned with Markab. This star brings focus to the physical expression of the soul. Markab holds the **gnosis (spiritual knowledge)** of metamorphosis of the physical body into a body of light in physical form. Markab activates the Merkabah, a grid of connected energy tetrahedrons created around our earthly form allowing for quantum leaps in our evolution.

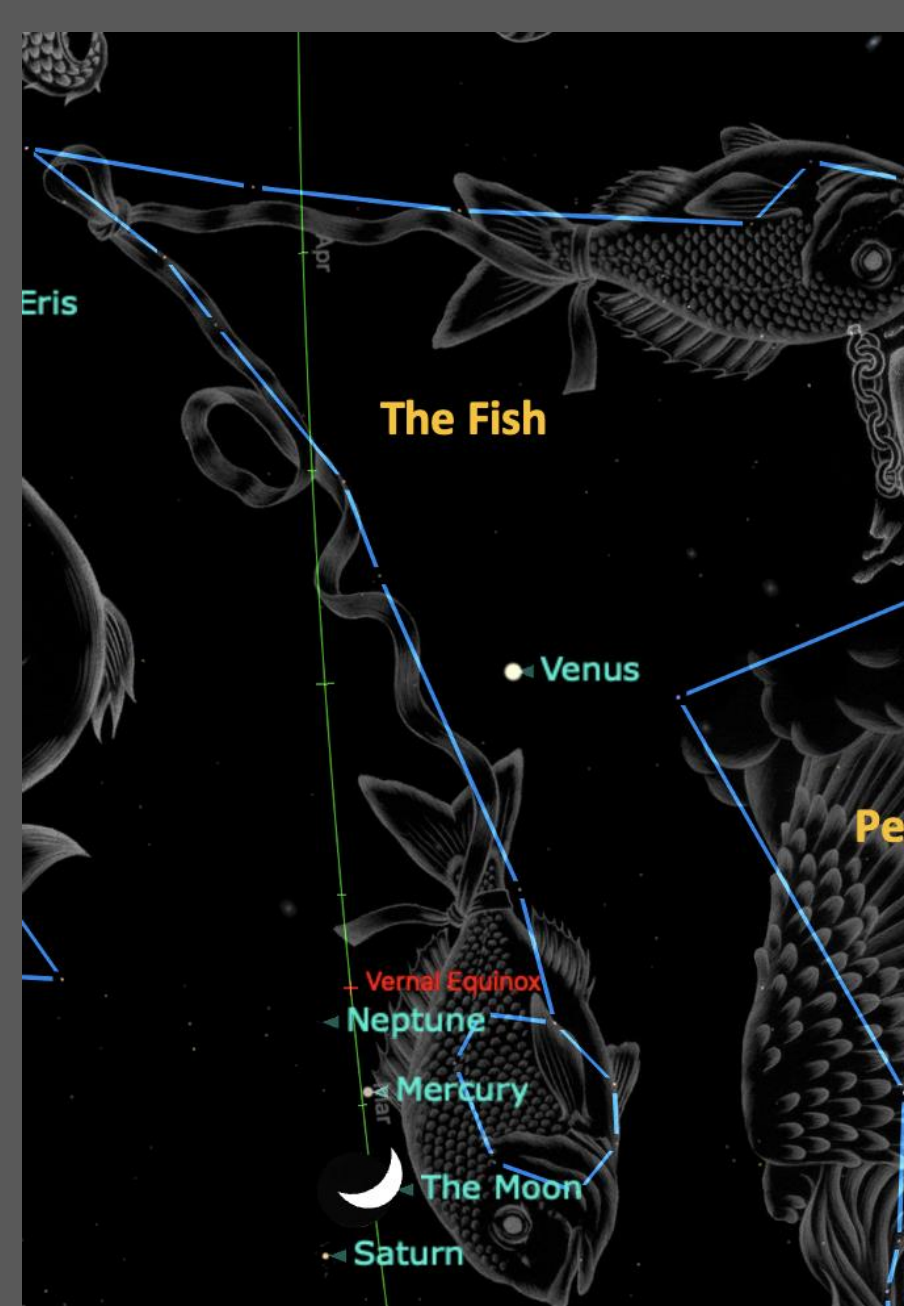

This is about ascending from the past into our destined human evolution. Markab can transform the physical body/temple, vessel of the soul, elevating our personal vibrational frequency.

Surfers of the Zuvuya: Tales of Interdimensional Time Travel by José Argüelles

Soul Star Chakra Gate Insights

*Zuvuya is a Mayan term for our
interdimensional connection to all
past and future dimensions.*

*It is also the universal wave of energy that
surrounds all life reminding us that the
universe operates within simultaneous
dualistic cycles.*

*The key to surfing the Zuvuya is
radical trust and radical surrender.*

*We must create a total world transformation including a revolution in attitude. We need to
understand our life in a joyous and happy manner as it will NOT work unless we play!*

Venus Cycle going retrograde in Aries will conjunct the Sun in Aries in 2025 at 02° Aries and 2033 at 00° Aries.

March 29, 2025 Venus rises as morning star in Pisces for the first time in 155 years back on Mar 2, 1870 at 00° Pisces.

The Aries to Pisces dance of Venus goes on for awhile as Venus started stationing direct in Pisces in 2009 and it continues to station retrograde in Aries until 2057 with its last Aries station retrograde at 01° Aries 32'

While most astrologers refer to this as an Aries Venus cycle
—marking her conjunction with the Sun in Aries on March 22, 2025—

We emphasize the moment Venus becomes visible, just as our ancestors did.
Depending on your location, Venus may rise visibly in Aries for some and in Pisces for others.

Venus comes together with the North Node in Pisces 18ish years. Venus and the North Node return to near the same place together every 56 years. Due to Venus Shifting through the signs when she rises as Morning Star the current cycle has just begun in April 2025. This means Venus & North Node sync with the 1970 cycle in 2026 and again in 2082 in Pisces cycle.

Reclaiming the Power of our Divinity at the Soul Star Chakra with the Leo Meta-Goddess and Venus in Aries

thru Mar 27, then again Apr 30 — Jun 5

The Leo Meta-Goddess continues her journey through Aries, where she turns retrograde and unites with the Sun, igniting our Divine essence with her fiery power.

We reclaim our sacred connection with the Goddess, aligning ourselves with the living pulse of the Universe. Like molten lava merging with the ocean, we embody the Divine within earthly form—grounded, yet ever-flowing. Rising with Inanna, we emerge from initiation, only to begin anew, moving in rhythm with the eternal dance of fire, earth, and sky.

- How do I now embody and ground the pure fire of the Goddess within me?
- In what ways am I embracing the empowerment of reclaiming my whole self on Earth?
- How am I choosing to create from all that I have learned on this journey?

Reclaiming the Power of our Divinity at the Soul Star Chakra with the Leo Meta-Goddess and Venus in Pisces

Retrograde Mar 27 — Apr 30

As the Leo Meta-Goddess re-enters the watery depths of Pisces, she welcomes the Aries Goddess into her healing embrace. Here, fire and water merge, carving new paths and birthing new earth. In the dance between individuality and the collective, we cultivate deeper empathy for ourselves, awakening the fierce and boundless love of the lioness within.

Through Pisces, we reclaim our Leo Divine Essence, learning to merge with the Goddess herself, allowing Universal Love to replenish our Souls.

Rooted in our eternal connection with the Goddess, we flow between Aries and Pisces, merging and individuating, rising and returning—ever in rhythm with the cosmic dance.

- How am I now experiencing the free flow of Universal Love within me?
- In what ways is my Self-Love radiating into the world?
- What does it feel like to emerge once more at the culmination of my initiation?

Goddesses that embody both the Aries and Pisces Energies

Gaia (a.k.a. our beloved Earth Planet) is the combination of Fire and Water creating Earth.

Aries: She commands the forces of nature on Earth, such as storms and volcanic activity. She is fiercely strong and capable of protecting her creation.

Pisces: Mother of All Life she has the great power to heal and help evolve all living beings having considerable telekinetic power.

Shadow Work at the Soul Star Chakra

“One does not become enlightened by imagining figures of light, but by making the darkness conscious.”

—Carl Jung

As we rise to the surface of the Earth after our 19-month initiation journey, we return whole and renewed.

Carrying the wisdom of all we have released and reclaimed, we now walk forward, embodying our truth and sharing our radiance with the world.

True wholeness is found in embracing both our shadow and our light—united as one, they illuminate our path.

<https://venusalchemy.com/arises-pisces/>

Soul Star Chakra Gate of Ascension When Does the Gate Complete?

Is it when Venus Stations Rx? That has been the old standard.

But in this cycle Venus Stations Rx and then meets with the Moon about 3 hours later?

Is it when Venus disappears from the Evening Sky?

That is either March 16 or 21 or 22.

Is it when Venus Rx Meets with the Sun?

That is March 22.

Is it when Venus conjuncts the Moon while retrograde and still not officially in the morning sky or 10° from the Sun?

That is March 28

©Venus Alchemy

I won't be able to make it live tomorrow so I thought I'd share that I feel that the soul star chakra gate ends when Venus meets with the Moon again on March 28th.

It's just more of a feeling that I get. Nothing else to back it up. I'm Pisces Rising with Mercury in Pisces if that explains my "logic".
